PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 23.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 19th October, 1900:

NO. 8 OF 1900.

A Bill further to amend the Indian Ports Act, 1889.

WHEREAS it is expedient further to amend the Indian Ports Act, 1889; It is hereby enacted as follows:

Short title and commencement.

1. (*1*) This Act may be called the Indian Ports Act, 1901; and

(*2*) It shall come into force at once.

Amendment of section 6, Act X, 1889.

2. (*1*) For clause (*p*) of sub-section (*1*) of section 6 of the Indian Ports Act, 1889, the following shall be substituted, namely:

"(*p*) with the previous sanction of the Governor General in Council, for the establishment and regulation of places to be used as sanitaria for the segregation of persons who are or have recently been suffering from any dangerous, infectious or contagious disease, and for regulating the action, including the disposal of dead bodies, to be taken—

(*i*) where a vessel on which there is any case of dangerous, infectious or contagious disease common in India, enters or is in any such port;

(*ii*) where a vessel on which there is any case of dangerous, infectious or contagious disease uncommon in India, enters or is in any such port;

(*iii*) where a vessel on which there has been any case of dangerous, infectious or contagious disease or any death within seven days previous to the arrival of the vessel at such port enters or is in any such port;

(*iv*) where a vessel enters any such port from a port in which, or in the neighbourhood of which, there is believed to be, or to have been at the time when the vessel left such port, any dangerous, infectious or contagious disease uncommon in India;

(*v*) where there is a dead body on board a vessel in any such port;

(*vi*) where there are on board a vessel in any such port food-stuffs which, owing to decomposition or for any other reason, are, in the opinion of the health officer, unfit for human consumption; or

(*vii*) where a vessel leaves any such port while there is in the port or in its neighbourhood any dangerous, infectious or contagious disease uncommon in India.

For the purposes of this clause only such diseases shall be deemed to be dangerous, infectious or contagious diseases, or diseases common or uncommon in India, as the Governor General in Council may by order direct."

(2) After the same sub-section the following sub-sections shall be inserted, namely:

"(3) If any person disobeys any rule made under clause (p) of sub-section (1), he shall be punished for every such offence with fine which may extend to one thousand rupees.

(4) If a master fails wholly or in part to do any act prescribed by any rule made under clause (p) of sub-section (1), the Health Officer shall cause such act to be done, and the reasonable expenses incurred in doing such act shall be recoverable by him from such master."

Repeal of Act I, 1870.

3. The Indian Quarantine Act, 1870, is hereby repealed.

STATEMENT OF OBJECTS AND REASONS.

SINCE the passing of the Indian Quarantine Act, 1870, the experience gathered at international sanitary conferences in regard to the spread of disease by sea-going vessels tends to show that the principle embodied in that Act is often ineffectual and may, in certain circumstances, be harmful. The Government of India have accordingly decided, in consultation with Her Majesty's Secretary of State, to follow the example of the United Kingdom in abolishing quarantine and to amend the law so far as is necessary to take the authority required for substituting for the provisions at present in force a uniform body of regulations consistent with the terms of the Venice Convention and with the rules prescribed in Great Britain under the Public Health Acts, 1875 and 1896. The purpose of the present Bill is to give effect to this decision by repealing the Indian Quarantine Act, 1870, and by extending the powers conferred by section 6 of the Indian Ports Act, 1889.

The 16th October, 1900.

T. RALEIGH.

J. M. MACPHERSON,

Secretary to the Government of India.

Great Yang tse bank—Shoal reported to the north-eastward of it.

THE British Admiralty has given notice (No. 560 of 1900) that information, dated 22nd August 1900, has been received from the General Manager of the Peninsular and Oriental Company that the S.S. *Socotra*, drawing 18½ feet, when on a voyage from Japan to Shanghai, struck on a shoal north-eastward of the Great Yang tse bank at 9h. 40m. P.M. on 5th June 1900, in approximately lat. 32° 9′ N., long. 125° 7′ E., and that, when the vessel was subsequently docked, clay and stones were found adhering to the damaged portion of the bottom. A shoal, with a depth of 3 fathoms over it, has in consequence been placed on the Chart in the above position.

It is to be observed that in 1896 the P. and O. S.S. *Shanghai* reported having obtained a sounding of 9 fathoms, just after noon, in lat. 32° 1′ N., long. 125° 9′ E.: the weather at the time was fine, but foggy, and consequently no astronomical observations were obtained. On receipt of this report Notice to Mariners No. 312 of 1896 was issued, and amended afterwards by Notice to Mariners No. 613 of 1896.

In December 1896 H.M.S. *Plover* was sent to search for this reported shoal, and sounded over an area of 4 miles without finding any such depths. When this information was received, Notice to Mariners No. 340 of 1897 was issued, expunging the 9-fathom sounding from the Chart.

These are, however, not the only reports of a shoal in this locality, as in 1868 H.M. Surveying Vessel *Sylvia* searched for breakers reported by P.M. S.S. *Costa Rica* in lat. 32° 10′ N., long. 125° 3′ E., without finding any sign of danger, the depths all round being very even (about 25 fathoms) over a space of 15 square miles.

Whilst it is difficult to suppose that a danger could continuously exist on a route so much frequented as that between the Yang tse and Japan without having been more frequently reported, it is evident a bank of some sort must have existed somewhere in the neighbourhood in June last, and, until the area has been thoroughly examined, mariners are warned to avoid the locality.

It is not impossible that such banks may occasionally be formed by the deposit brought down by the Yang tse when in flood, and afterwards dispersed by wave action in the N.E. monsoon. (*Notice No. 560 of 1900.*)

Gatcombe head and leading lights—Intended alteration and exhibition.

THE British Admiralty has given notice (No. 572 of 1900) that it is intended to make the following alterations and additions to the lights of port Curtis:—

1. Gatcombe head. A new *fixed* light, elevated 122 feet above high water, and visible in clear weather from a distance of 13 miles, will be exhibited showing the following sectors:—*white* from the bearing of S. 29° W., through west, to N. 70° W.; obscured from N. 70° W. to N. 45° W.; *white* from N. 45° W., through north, to N. 21° E.; *red* from N. 21° E. to N. 43° E.; *white* from N. 43° E. to the land.

   It will be shown from a cylindrical tower, 38 feet high, painted white with red dome, now being erected about three-quarters of a cable N. 11° E. from the present light.

   When this light is exhibited the present light will be extinguished.

   Approximate position, lat. 23° 53′ S., long. 151° 23′ E.

2. Near the entrance to the Boyne river, two 4th order leading lights will be established: the front light, elevated 66 feet above high water and visible 12 miles, will be shown from a skeleton tower, 30 feet high, painted white; the rear light, elevated 121 feet above high water and visible 14 miles, will be shown from a square building painted white on a hill at a distance of 9½ cables S. 75° W. from the front light.

   These lights, in line S. 75° W., are intended to lead through the south channel entrance.

3. On the western slope of Gatcombe head two other leading lights will be established: the front light, elevated 32 feet above high water, will be shown from a small house; and the rear light, elevated 66 feet above high water, from a skeleton tower.

   It is expected that these leading lights will be ready for exhibition shortly, but further notice on the subject will be given. (*Notice No. 572 of 1900.*)

AUSTRALIA—NORTH-WEST COAST.

Non-existence of Eldorado rocks and Squaw shoals.

THE British Admiralty has given notice (No. 576 of 1900) respecting an unsuccessful search for the undermentioned rocks and shoal off the north-west coast of Australia:—

1. ELDORADO ROCKS, in approximately lat. 18° 20′ S., long. 117° 45′ E., were searched for over an area of 230 square miles in their reported locality, in exceptionally clear and fine whether. Nothing, however, was seen or any indication of shoal water found, the soundings of from 160 to 350 fathoms, showing a gradual slope of the bottom to the north-westward.

These rocks were reported to have been seen from a distance of 5 or 6 miles by M. Pertis, of the French ship *Eldorado*, on 20th May 1879, the weather at the time being cloudy with rain, and a sounding of 105 fathoms being also obtained. They appeared to consist of two rocks from 16 to 18 feet high. In 1880 the Admiralty surveying vessel *Meda* devoted several days to the search for these rocks without seeing them, and, as the *Penguin* has now been equally unsuccessful, it is considered that these rocks do not exist, and they have consequently been erased from the Charts.

2. SQUAW SHOAL, reported in 1860 as a dangerous 10-feet patch, in approximately lat. 20° 41′ S., long. 114° 17′ E., was also searched for without effect. An area of 200 square miles was sounded over in the reported vicinity of this shoal, during exceptionally clear and fine weather, with a very long ocean swell, and the bottom was found to have a gradual slope to the north-westward, the depth over the reported position being 539 fathoms globigerina ooze.

The German frigate *Gazelle* in 1875, and the Admiralty surveying vessel *Meda* in 1880, passed over the assigned position of this danger, and H. M. surveying vessel *Penguin* on a previous voyage in 1891 passed within 1½ miles of it without seeing any indication of shoal water. It is therefore considered that this shoal cannot exist, and it has been erased from the Charts. (*Notice No. 576 of 1900.*)

This Notice affects the following Admiralty Charts:—Indian ocean, No. 748a; Australia, northern portion, No. 2759a; Bedout island to cape Cuvier, No. 1055; North-west coast of Australia, No. 475; Buccaneer Archipelago to Bedout island, No. 1048: Also, Australia Directory, vol. Mar. 21st	94	12mo dy	1st...	1,000	ditto ...	0 8 0	The author, c/o, Guru Dás Chatterji, 201, Cornwallis Street, Calcutta.	Is the story of the Princess Sukanyá as told in the Mahábhárata, dramatised. The plot is as follows:—On one occasion king Saryyáti accompanied by his queen and the Princess Sukanyá visited the hermitage of the sage Chyavana. While there, the attention of the princess was drawn by two bright-looking objects in an ant-hill and out of girlish curiosity, she pricked them with her head pin. Immediately a shriek of pain was heard and she discovered to her dismay that she had unintentionally blinded the eyes of the old sage Chyavana, who lay embedded there. As a consequence, the intruders into the hermitage were punished with a temporary obstruction of their intestines and the king had to appease the sage by giving him his daughter in marriage. The princess accepted her fate without demur, and was unremitting in her attention to the sage. At this the twin gods Asvini Kumars took pity on her, and after putting her chastity to a severe test rejuvenated her husband. The sage returned their favour by making them partakers of the soma juice along with the other gods, a privilege from which they had up to that been debarred. The character of Sukanyá is very well-drawn.	274

1900	Pages.					Rs. A. P.			
April 4th	400	8vo dy	1st...	1,000	Printed.	1 8 0	The author, Khustia.	Is a story relating mainly to the quarrel between two female Muhammedan zamindars in Northern Bengal. It is full of graphic realistic sketches illustrating the life led by the local Mahammedan gentry, the roguery of the zamindari amlá, the corruption of the police and the high-handed proceedings of the native judiciary and magistracy in the mufassal. Among the characters, that of Begam Sáheb is very cleverly drawn. The writer is no friend of female emancipation, and he comments in strong language on Begam Sáheb's not conforming to the system of purdá prevalent among high class Mahammedan ladies. The writer, though a Mahammedan, writes Bengali with ease and possesses a wonderful command over the vocabulary of the language. But his style is nevertheless ungrammatical and marked by East Bengalism and an absence of literary grace.	278
April 14th	218	12mo dy	1st...	500	ditto ...	1 4 0	The author Teacher, H. E. School, Diamond Harbour.	Is a story of domestic life. The hero Harináth was a dutiful son and a model husband, and the relation between his mother and wife was from the first a most cordial one. But he was a man of enlightened ideas and an advocate of female education. His attempt to educate his wife, and the wife's willingness to educate herself roused his mother's suspicions, and the old lady began to dislike her daughter-in-law. In course of time, the dislike took the form of positive ill-treatment, and the daughter-in-law could stand it no longer. As Harináth was unwilling to interfere for fear of displeasing his mother, his wife Sárvání left home in sorrow and disgust. This incident opened the eyes of the old lady; she saw the error of her ways and died of grief. During this period of trial, Harináth behaved with exemplary fortitude. He succeeded after a time in tracing his wife and bringing her back. Harináth's success in life was due to the careful training he received in early boy-hood from his father's aunt, and he testified his gratefulness to the old lady by erecting a temple to her memory. The characters of Harinath and his wife Sarvani are well drawn. Nevertheless, the plot is wanting in artistic development and the language and style stand in need of improvement.	279
„ 10th	350	12mo dy	1st...	1,050	ditto ...	1 8 0	The author, 18, Siva Náráyan Das's Lane, Calcutta.	Is the story of the Empress Nurjehan from her birth to her marriage with Jehangir, told with modifications introduced for the sake of artistic effect. These modifications, however, serve only to mar the beauty of the story and to bring into prominence the defects of the author's style and composition. The book is remarkable mainly for its bad writing, hollow sentimentality and the evidence it affords of the writer's lack of originality and his tiresome habit of spinning out a theme.	280

May. 2nd	132	8vo dy	2nd...	1,000	Printed.	1 0 0	Adhar Chandra Basu, 51/2, Sukea's Street, Calcutta.	Is a picture of an ideal wife according to Brahmo notions. Manoramá was a widow, who married Sarat Chandra and proved to be a very faithful and dutiful wife. She fully realised the responsibilities of married life and tried to discharge the duties of a wife and a mother to the best of her power. She is nevertheless far from attaining the Hindu ideal of wife-hood. She has, moreover, more things in common with an English lady than with a genuine Hindu wife. The style, though fairly good, is ungrammatical and not free from provincialism.	284
1899. September	225	12mo dy	1st...	1,000	ditto ...	1 0 0	......	Many of the stories in this collection are well written. The Hyderabad Jewel story, which is the best in the collection, originally appeared in the *Statesman* newspaper some years ago.	285
March.	226	8vo dy	1st...	1,000	ditto ...	1 0 0	......	Is the story of the Brahmin youth Kamalakumár's experiences in the course of his wanderings from place to place.	286

He had formed an attachment with the Brahmin girl Sundarí and her mother was anxious to see her married to him. But as the whereabouts of the wandering youth could not be ascertained, Sundarí was, much against her own and her mother's wish, married to another and soon become a widow. In the meantime, Kamalakumár caught the fancy of the Sudra girl Vilásiní, whose sincere and disinterested attachment to him was the only bright point in his life, hitherto spent in misery and woe. At last he met with a sannyásí, and became his disciple. During this period he happened to rescue a girl from drowning, and the girl rescued, turned out to be the widowed Sundarí. His identity being now known to her relations, they proposed to give her in marriage a second time. But the youth, faithful alike to his early love as well as to the disinterested attachment of Vilásiní, resolved to remain a bachelor. His *guru* now interposed and induced Vilásiní to exercise her influence with him to rescue him from his embarrassment. She nobly sacrificed her own happiness for that of her rival, and Kamalakumár was married to the latter with her consent and approval. The book is written in fairly good, though incorrect Bengali, and the description of village life in the early chapters of the book is rather well-done. The plot nevertheless lacks coherence, and many of the incidents described might have been omitted with advantage.

May 9th	350	8vo dy	1st...	500	ditto ...	1 0 0	The author, Dwarbhángá.	Is an inquiry into the economic condition of India under British rule, and the means by which such condition may be improved The writer thinks that there has been a general impoverishment of the people under that rule, and that they and their government are alike responsible for the result. If now, the people want to better their condition they must give up their sloth, apathy and indolence, and bestir themselves to improve the arts, manufactures and the agriculture of their country and to remove the abuses which have crept into their religious and social institutions. But above all, they must be true to the cardinal principles of their religion, and set their faces against imitating the mere forms, without spirit, of western civilisation and avoid ultra-radicalism in the matter of social and religious reform. The congress movement is no doubt a good thing, but mere political agitation can not save the country. Let the people work more and talk less, and they will rise in the estimation of government. The book is written in an excellent spirit and freely acknowledges the benefits of British rule.	354
April 2nd	128	12mo dy	1st...	500	ditto ...	......	The author, 181, Maniktalá Street, Calcutta.	Purports to give an account of the origin and development of the different castes and religious sects in Bengal. The account is utterly unreliable and the book is full of silly and dogmatic writing. 1899 Mar.	122	16mo de	1st...	600	ditto ...	1 0 0	......	Is an original poem of considerable merit describing the creation of the universe out of chaos, the evolution of man on earth and the attainment by him of the highest civilization, his exclusive faith in science and consequent fall from the path of virtue, and the final destruction of the universe as a punishment for his sins. The main idea of the poem is borrowed from Campbell's lines quoted in the preface. The poem is supposed to be sung by heaven's musician before an audience of gods and hence the name. The poem contains here and there passages of great beauty and originality.	386
1900 May 3rd	168	16mo sd	1st...	1,000	ditto ...	0 12 0	Aghor Náth Datta, 120-2, Masjidbári Street, Calcutta.	Is a religious and philosophical poem written with the object, as the author says, of ascertaining the true character of *vairágya* or freedom from passions and desires. A man's spiritual vision is opened by the mysteries of existence and he comes to hate all pleasures and passions. Latter on, he comes to realise that it is the self within, which is the source of all joy and enjoyment and to the man who has realised this, the rest of the universe appears insipid and meaningless. The book is written in obscure and prosaic verse, and it is difficult to catch the sense.	387

1899. June 1st	100	8vo f. c.	1st...	500	ditto ...	0 8 0	The author	Is a poem bewailing the death of the late Bhudev Mukherji, C. I. E., and describing his final re-union with God. After his death, Bhudeva was conducted by the river-goddess Ganges to the nether regions, where he met with his wife. Thence accompanied by his wife he successively visited the heavens presided over by Indra, Brahmá, Vishnu and Siva, and was at last permitted by the last-named god to enter into nirvána with his wife. The poem contains a vivid description of hell, and its multifarious tortures, and among its inmates may be recognised hypocritical Bráhmo gentlemen and men whom a threat from their *white* superiors induced to swerve from the path of justice. The book is full of errors of grammar.	41

The net increase amounted to Rs. 4,62,362, and was due, in Class II, mainly to the resettlement in Orissa, and in Class III, to the effect of progressive rentals in the districts of Dacca, Jalpaiguri as well as to the assessment of new accretions and to the revision of the rent-roll in Chittagong.

4. *Collections, balances, and remissions.*—Compared with the previous year, the total demand increased by Rs. 5,25,047 and the total collections by Rs. 8,68,352. The remissions decreased by Rs. 71,974, and the total balance at the end of the year had decreased by Rs. 2,71,331. The percentage of arrear collections slightly increased from 76·39 to 76·66, and absolutely they increased by half a lakh. The total balance, arrear and current, outstanding at the close of the year represented a percentage of 3·07 on the total demand as compared with 3·77 in 1898-99. Of this, 90·5 per cent. was good and recoverable.

Of the total amount of Land Revenue remitted during the year Rs. 1,15,431 related to estates held direct by Government. The remissions of grace amounted to Rs. 38,662, as against Rs. 1,32,264 in the preceding year. Rupees 16,085 were granted in Chittagong chiefly on lands laid waste by the storm-wave of the 24th October 1897. In other districts these remissions were, as usual, mostly allowed in Government estates, on account of the death, desertion and poverty of the raiyats, or the failure of their crops. The remissions of right amounted to Rs. 41,971 as against Rs. 39,511 in 1898-99, and were chiefly due to diluvion, release of estates to private zamindars, and the acquisition of land for public purposes. The nominal remissions rose from Rs. 22,075 to Rs. 41,243, of which Rs. 14,256 were in Backergunge alone.

For the first time for a decade the gross collections have exceeded the current demand. The produce of a fat year has paid, as it properly should, the arrears of the lean ones that went before, and on the whole the work of the Collectors has been careful and good.

5. *Permanently-settled estates.*—Out of a total demand, current and arrear, from estates in Class I of Rs. 3,27,06,338, the sum of Rs. 3,24,39,116 was realised. The percentage of the collections on the demand, after excluding from the latter sums the recovery of which was in suspense, and adding to the collections sums realised but not credited during the year, amounted to 99·44 per cent., as against 99·21 in the preceding year and 99·11 in 1897-98, and has not been equalled within the last twenty years. The current collections fell short of the standard of 99 per cent. in eleven districts, of which six, however, collected more than 98 per cent. The districts which collected less than 98 per cent. of the current demand were Chittagong, Noakhali, Manbhum, Ranchi and Darjeeling. In Darjeeling, out of a total demand of only Rs. 1,000, Rs. 158 was remitted, and the balance was not paid owing to a dispute regarding inheritance. Out of Rs. 11,199 due from Chittagong, Rs. 9,834 will be recovered under the Sale Law, Rs. 1,261 will be realised from the sale-proceeds of the estates concerned, and the remainder (Rs. 104) represents petty arrears. In Noakhali, Rs. 11,107, out of the total balance of Rs. 11,410, is due from Chakla Bamni. This estate defaulted in the previous year, and has been purchased by Government but not yet settled. In Manbhum the balance of Rs. 3,165 was due, as in the previous year, from the Patkum Encumbered

Estate, and was not paid in consequence of the inability of the estate to realise the farming rent from Messrs. Jardine Skinner and Company, the Agents of the Patkum Indigo and Trading Company. The farming lease will be brought to sale in execution of the decrees obtained against the Company. In Ranchi, Rs. 2,834, out of the balance of Rs. 3,441, is due from Tributary States, and a greater portion of it has been realised since the close of the year.

The realisation of the arrear balances was less than 99 per cent. in fifteen districts. In two of these the collections exceeded 98 per cent., and in six the arrears were trifling. Out of the total arrear balances of Rs. 57,440, no less than Rs. 30,437 is outstanding in the Patna Division, the largest defaulter being, as in the two previous years, the district of Shahabad (Rs. 22,369). Much of this amount is under recovery by certificates issued against the proprietors of certain mahals purchased by Government at revenue sales. It includes Rs. 16,057 due from one estate, Salempur Parsa, which was put up to sale, but for which there was no bid. The estate is reported to have suffered greatly from diluvion. Balances of over Rs. 1,000 were also due in the districts of Noakhali, Chittagong, Patna, Gaya, Darbhanga, and Manbhum.

The total amount of Land Revenue remaining due from wards' estates at the close of the year was Rs. 27,345, as against Rs. 56,652 in 1898-99. Nearly the whole of the balance in Shahabad was due from the Mahula Ward's estate (Rs. 6,490); and the Board have sanctioned the sale of a portion of the estate with a view to the payment of the revenue due to Government. The Lieutenant-Governor would be glad to have a special report from the Board on this desperately embarrassed property and on the causes of failure in the management during the last five years. In Purnea, Rs. 5,015 is due from the estate of Syed Asgar Reza, Khan Bahadur, which is in a state of almost hopeless debt and confusion. The amount due from the Churaman estate in Malda (Rs 4,642), nearly the whole of the sum due in Muzaffarpur (Rs. 2,544), and the balance on account of wards' shares in estates in Saran (Rs. 1,579), have been realised since the close of the year.

6. *Temporarily-settled estates.*—The total demand, current and arrear, from temporarily-settled estates, amounted to Rs. 36,89,606 as against Rs. 34,93,772 during the previous year, and the total collections to Rs. 34,81,286 as compared with Rs. 31,55,544 in 1898-99. The percentage of total collections on the total demand was 94·35 against 90·31 in the previous year and 89·96 during 1897-98. The results of collections in each subdivision of this class during the year under report, as well as for the preceding year, are given below:—

Classification of Estate.	Year.	Percentage of current collections on current demand.	Percentage of arrear collections on arrear demand.	Percentage of total collections on current demand.
1	2	3	4	5
II. (a) Settled for periods with proprietors ...	1898-1899	93·01	91·82	99·8
	1899-1900	96·34	97·35	100·3
II. (b) Private estates leased to farmers for periods.	1898-1899	84·47	86 43	98·2
	1899-1900	88·35	90·15	107·4
II. (c) Government estates leased to farmers for periods.	1898-1899	84·09	70·09	99·1
	1899-1900	90 93	71·11	106·9
Total ...	1898-1899	91·07	83·07	99·7
	1899-1900	95·18	83·67	101·7

The percentage of collections shows improvement under each of the three heads. This result, which has not been equalled during the last twenty years, is perhaps due partly to recent orders for improving collections in temporarily-settled estates, but mainly to higher prices which facilitated payments by the raiyats.

The six districts least successful in clearing their balances were,—*Midnapore*, with a balance of Rs. 74,532 on settled estates; *Khulna*, with a balance of Rs. 9,663 on Government estates; *Dacca*, with a balance of Rs. 3,003 on Government estates; *Backergunge*, with a balance of Rs. 9,840 on settled estates; *Shahabad*, with a balance of Rs. 11,281 on Government estates; and *Malda*, with a balance of Rs. 2,400 on Government estates. But of these, Khulna and Dacca realised 111 and 112 per cent. on the current demand, and may present a clear sheet in the current year. In Midnapore, the Collector attributes the short collections to the default of the proprietors of the Jalamutha estate. These difficulties are chronic, but in 1895-96 the Collector realised 105 per cent. on the current demand, and there is no obvious reason why there should have been such serious default last year. In the other three districts the outstandings are relatively small. The Collectors of Backergunge and Shahabad have been so successful in other matters that the Lieutenant-Governor is disappointed to find they have not done better here. In this, as in all branches of a Collector's work, attention to detail is of the first importance. The Lieutenant-Governor would be glad to see the special report that has been called for from Malda.

As in the three previous years, the Collector of the district of Hooghly failed to collect 50 per cent. of the current demand in private estates leased to farmers whose continual defaults point to the probable necessity of action being taken to eject them with a view to the management of the property direct.

7. *Estates held direct by Government.*—During the year under report there were altogether 2,866 estates held direct by Government, of which 2,625 were owned by Government as proprietor and 241 were private estates under Government management. The current demand increased from Rs. 39,02,484 to Rs. 41,04,753, and the total demand from Rs. 47,57,376 to Rs. 51,70,021, out of which Rs. 42,44,889, or 82·15 per cent., were collected, and Rs. 1,15,431 remitted, leaving an unrealised balance of Rs. 8,09,701, or Rs. 25,028 less than in the previous year.

The general results are compared below with those of the previous year in each subdivision of this class:—

Classification of Estate.	Year.	Percentage of current collections on current demand.	Percentage of arrear collections on arrear demand.	Percentage of total collections on current demand.
1	2	3	4	5
(*a*) Managed for proprietors	1898-1899	89·62	77·84	101·9
	1899-1900	78·30	72·72	108·3
(*b*) Owned by Government as proprietor ...	1898-1899	79·83	65·11	94·7
	1899-1900	85·77	71·76	102·6
Total ...	1898-1899	81·12	66·32	95·6
	1899-1900	84·73	71·97	103·4

This is a marked and valuable improvement on last year. The standard in both classes of estates was, however, reached or exceeded in only 17 districts as compared with 18 in 1898-99.

In the Resolution of last year, Government animadverted on the poor current collections in the districts of Patna, Jalpaiguri, Balasore, and Palamau. This year, the collections in the first two districts have greatly improved, in Jalpaiguri mainly owing to a change in the method of realising arrears, and in Patna probably owing to careful supervision. The heaviest balances are in the districts which are named in the table below. A comparison has been made with the balances and the standard of collection in the same districts in the year 1895-96, the year preceding the famine and one of generally normal conditions.

The comparison is suggestive.

The Board explain that in Midnapore there were serious floods in the Majnamutha estate, which made it impossible to enforce collections vigorously. The Lieutenant-Governor accepts the explanation. There has been material reduction in rent-arrears, and the experience of 1896 shows that collections revive with favouring seasons. In Bogra, there has been an honest attempt to make up for lost way, but much remains to be done. On the other hand, there seems no excuse for the great growth of arrears last year, and the Collector must give this matter his close attention. In Chittagong, there has been much failure of the crops due to the cyclone of 1897, but the Lieutenant-Governor expected better rent-collections three years after that disaster, and the local officers must settle how much of the balances can be fairly demanded and whatever is fair firmly recover. Nor can the Lieutenant-Governor accept the explanations which have been given of the very bad collections in Balasore. The tenants have had three years to recover from the famine of 1897, and in the adjoining districts of Puri and Cuttack the rent realisations have been admirable. In the hill districts of Angul, Singhbhum, and Palamau, the shortness of the year's crops are sufficient excuse for the low recoveries; and the Collectors have always to remember that while they are right to be lenient in times of bad harvest, it is equally their duty to be firm in times of good harvest.

8. *Miscellaneous revenue.*—Out of the total collections under the head of miscellaneous revenue, more than half, amounting to Rs. 4,09,502, was on account of the recoveries of survey and settlement charges, principally in the districts of Saran, Champaran, Muzaffarpur, and Darbhanga. The total balance at the close of the year amounted to Rs. 21,101 which has been satisfactorily explained by the Board.

9. *Sale of Government lands.*—During the year under report, 195 petty Government Estates, with an area of 4,719 acres were sold, subject to a revenue fixed in perpetuity of Rs. 6,110. The price realised was Rs. 69,427.

10. *Particulars of estates held direct.*—Particulars of estates held direct by Government, classified by Divisions, and showing the demands, cost of management, and total collections during the year are given below, and His Honour is glad to see that the cost of management on an average for the Province as a whole is below the standard expected, viz., 6 per cent :—

Division.		Government Estates. Number.	Government Estates. Current demand.	Private Estates. Number.	Private Estates. Current demand.	Total. Number.	Total. Current demand.	Cost of management. In four districts, namely, Birbhum, Bogra, Tippera and Shahabad, as against seven in the previous year, the cost of management exceeded ten per cent. on the current demand, and it is assumed that the Board have satisfied themselves that, in the case of the three last named districts, the cost of management cannot be reduced without impairing efficiency. Similarly, with regard to the districts of Darjeeling and Palamau where the cost of management very nearly comes to 10 per cent of the current demand.

11. *Road and Public Works cesses.*—The following table shows the demands, collections, remissions, and balances on account of the road and public works cesses during the year under report, as compared with the figures for the two preceding years:—

Year.	Net demand after excluding reductions and remissions			Collections (including advance collections).	Percentage of collections on current demand	Balances.	Percentage of balances on gross demand	Remissions
	Current.	Arrear.	Total					
1	2	3	4	5	6	7	8	9
	Rs.	Rs.	Rs	Rs		Rs.		Rs
1897-98 ...	89,56,8[illegible]0	17,82,378	1,07,38,68[illegible]	88,71,698	97 0	18,75,410	17 4	81,[illegible]
1898-99 ...	90,38,880	18,60,441	1,08,99,321	90,08,145	99 6	19,07,114	17 5	8[illegible],006
1899-1900 ...	90,54,990	19,09,787	1,09,94,777	93,23,990	102 5	17,04,698	15 6	45,267

The increase in the current demand is due mainly to the general re-valuation of the district of Palamau and to partial revaluations in the districts of Khulna, Dacca, Mymensingh, Backergunge, Noakhali, and Manbhum. The aggregate collections were higher in amount than in any preceding year, and the percentage of total collections to the current demand was the highest obtained for twenty years. There is still, however, the great sum of 17 lakhs outstanding. It is difficult to believe that in 1899-1900, famine or plague could possibly have hampered collections so seriously as to account for such large balances of a moderate cess.

12. *Remittance of Land Revenue and rent by means of money orders.*—There was a decrease in the number of money-orders issued for the payment of revenue and cess from 198,746 to 197,821, and in the amount covered by them, from Rs. 18,20,360 to Rs. 18,17,067. The falling off occurred mainly in Midnapore, Hooghly, Nadia, Shahabad, Muzaffarpur and Balasore, and the Board think that the decrease is probably the effect of the decision of the High Court that where the revenue of an estate is sent through the post office, the remitter takes the risk of all delays and mistakes made by the post office.

This impression will, it is presumed, be removed as people learn that, when the delay is not due to their own neglect, relief will be given under section 25 of Act XI of 1859.

It is reported that the system is only popular with the owners of petty estates, and that the owners of large estates find it cheaper and more convenient to pay through their agents.

The following table gives the available statistics of the working of the system of payment of *rent* by money-orders during the last five years:—

Year.		Number of money-orders issued for rent.	Amount	Number of such orders refused.	Amount
			Rs		Rs.
1895-96	...	48,708	6,20,097	14,503	1,59,890
1896-97	...	50,488*	7,40,526*	14,070*	1,73,724*
1897-98	...	51,865*	7,12,973*	11,295*	1,22,116*
1898-99	...	50,484	7,67,913	10,137	1,23,952
1899-1900	...	51,561	8,42,228	12,479	1,27,086

It is stated that landlords do not like the system, and prefer personal payment. It may be that the attendance of the tenant gives them an opportunity of realising interest and other less legal demands, but there are also good grounds for the complaint that the tenant who pays by money order, habitually withholds part of his rent, and that the system leads to serious inconvenience and increase of litigation.

* These are the corrected figures

1899-1900 ...	17,326	1,112	574	......	1,686	9·7	1,66,237	78,227	12,53,601

The number of estates sold (1,112) represents only about ·06 per cent. of the total number of estates in Bengal 182,522). The prices realised by sale decreased from 8·6 to 8 times the revenue demand on the properties sold. Out of 363 appeals preferred to the Commissioner against sales, 59 were successful, and recommendations for the annulment of the sales were made to Government in 26 cases on the ground of hardship.

As in the previous year, defaults were most numerous in Shahabad (2115), Cuttack (1,582), Chittagong (1,403), Saran (1,355 and Muzaffarpur (1,167). In the Resolution of last year greater strictness was enjoined in administering the sale law in Shahabad, Saran and Muzaffarpur; but in the district first named, some leniency had still to be shown during the year under report owing to the change of instalments which had been made from the June kist of 1899, but which could not be communicated to all the interested parties. In Saran and Muzaffarpur there was an increase in the number of actual sales as compared with the previous year.

There were excessive delays in holding sales for arrears of the first three kists in Chittagong and of each kist in Puri. The rule requiring the holding of sales for arrears of one kist before the next kist day comes round, was followed in all districts, except in Patna, Muzaffarpur, Monghyr, Hazaribagh, Bhagalpur and Chittagong. There is some excuse for occasional delay in Chittagong and Muzaffarpur owing to the number of estates and tenures in those districts, but the delay in the other districts has not been satisfactorily explained, and the matter is commended to the attention of the Board.

14. *Working of the Public Demands Recovery Act, I (B.C.) of 1895.*—The following statement shows the number of certificate cases instituted and disposed of during the year under the different classes of public demands:—

Classification of demand.	Number pending from last year.	Number filed during the year.	Total.	Disposed of during the year.	Pending— More than six months.	Pending— Less than six months.	Pending— Total.

NOTE.—The difference of 1,307 between the total number of pending cases shown in the report for 1898-99 and that shown under the heading "Number pending from last year" in the above statement is due to the discovery of pending cases at the time of re-writing Register No. X in Saran.

There was a net increase of 15,098 in the number of certificates filed. The increase is most marked in Class V, "Cesses," and Class VII, "All other

demands" The increase under Class V is shared by all Divisions, except Chittagong and Orissa, and appears to be due to some extent to better supervision and greater punctuality and strictness in enforcing demands, but mainly to the decrease of voluntary payments. The increase under Class VII is, in most districts, due to certificates for the recovery of loan arrears, fines under the Cess and Land Registration Acts, and costs of partition, and settlement. The proportion of certificates disposed of to the total number for disposal increased from 68·6 in the previous year to 73·3 per cent. The proportion was highest in the Orissa Division as in the previous year. The progress made in the Burdwan Division, where the unsatisfactory state of things was animadverted on in last year's Resolution, has been somewhat more satisfactory; but the Lieutenant-Governor has learnt with surprise that the orders of Government which permitted a staff varying with the amount of work were misunderstood in every district of the Division save Birbhum. He trusts that the attention which the Collectors are now directing to this Department will not be remitted.

15. *Compulsory measures for realisation.*—Of the cases in which the demand was realised, 28·4 per cent. was disposed of on issue of notice, 52·9 per cent after attachment of property, and 3·4 per cent. after actual sale; the corresponding figures in the previous year were 29·8, 51·3 and 3·2 per cent. Post card notices do not appear to have been particularly successful.

Last year the effect of section 21 of the Public Demands Recovery Act was discussed in the Board's report, and further information has been furnished in the present report. The Board's opinion is that "the provisions of the section do not interfere with professional bidders, but the penalty is too small to attract *bonâ fide* local purchasers who desire to buy the land with a view to taking possession thereof, as they are unwilling at present to come forward owing to the risk of the sale being set aside, and are unable to devote personal attention to getting their business through like professional bidders, who are generally mukhtars, revenue agents or other habitués of the Courts."

In a separate report of the Board on the collection of the Roads and Public Works cess, the general question has been discussed at greater length; and the Lieutenant-Governor has been greatly impressed by the growing reluctance to make voluntary payment, with the consequent enormous strain that is thrown on the Certificate Departments. He has also observed that this evil, though great, is not universal. The remedy, therefore, consists not in a change of the law so much as in the more vigorous application in the recalcitrant districts of the powers already conferred by the law, and it is in this direction that he proposes to issue separate instructions

ADMINISTRATION OF LAND REVENUE.

16. *Management of Government Estates.*—The amount allotted by Government to the Board for management and improvement expenses nominally consists of 1½ per cent. of the collections for roads and communications, 1 per cent. for education and 9½ per cent. for management, agricultural, sanitary and miscellaneous improvements, of which management is expected not to exceed 6 per cent., and miscellaneous improvements ½ per cent. There has in the past been some confusion about the method of calculating these sums, but orders have recently been passed rectifying the matter. In addition it has been definitely ordered that the grant for education is to be expended in supplementing the ordinary allotments which schools in Government estates in common with others are entitled to receive from District Board Funds.

There is a little difficulty in determining the precise objects on which some of these grants are expended, especially when contributions from several different funds are made for the same purpose, as in the case of schools and roads The expenditure incurred on management was Rs. 2,41,786 or 5·9 per cent. of the current demand of Rs. 41,04,753. The expenditure on agricultural, sanitary, and miscellaneous works aggregated Rs. 2,16,994 or 5·2 per cent. of the current demand. For roads and communications the total amount expended was Rs. 1,61,738, of which Rs. 64,179 or 1·7 per cent. were apparently debited to the grant. Similarly for education the sum that should have been allotted (1 per cent.) was Rs. 49,100, but apparently it

was largely exceeded. The total expenditure appears to have been about Rs. 5,75,000, instead of Rs. 4,92,570; but the arrangements now made will prevent excessive expenditure in the future. The Lieutenant-Governor has read with pleasure that the raiyats of the *khas mahals* of Chandkhali and Mohamadabad in Khulna voluntarily contributed considerable sums to supplement the Government contributions for a bridge, roads and a dispensary in the neighbourhood. This practical appreciation of the benefits of a dispensary is gratifying.

17. *Inspection of Accounts.*—The usual inspections were made of the registers and accounts of the Government estates, but no material irregularities were brought to light.

18. *Condition of the raiyats.*—The year was, generally speaking, one of good crops and high prices for food grains; and in Bengal proper the raiyats of the *khas mahals* shared in the general prosperity. There was however a scanty autumn rainfall in Orissa and Chota Nagpur, and the poorer cultivators in Khurda, Puri, Banki, and Angul, and in all the districts of Chota Nagpur, underwent some hardship. In Shahabad and Monghyr also the year was less prosperous than usual. Relief was given in the four affected estates in Orissa, and Chota Nagpur.

19. *Survey and Settlements.*—The survey and settlement work in the province generally has, as usual, been separately reviewed in detail for the year ending 30th September 1899 in Government Resolution No. 581T.—R , dated 26th May 1900.

In Government and temporarily-settled estates, 134 original settlements, 3,609 re-settlements, and 170 summary settlements were completed during the year, with a net increase of revenue, amounting to Rs. 4,43,180, due chiefly to original settlements in the Sundarbans, and to re-settlements in Orissa, Backergunge and Noakhali.

In the usual forecast of increases of revenue expected from revision of settlement and other causes combined for the six years ending 1903-1904, the total increase of Rs. 4,59,649 was anticipated in the demand of the year under review, but the actual increase obtained was Rs. 4,62,362, or about Rs. 3,000 in excess of the estimate, as finally passed by Government.

20. *Land Registration.*—The total number of applications for registration in the Collector's Register of Land Revenue slightly increased.

The Officiating Commissioner of Patna, Mr. Hare, has pointed out that it is not clear, what the entries in the statement hitherto annually submitted really are, and the Lieutenant-Governor agrees with the Board, that the question should be considered afresh, with a view to an attempt being made to obtain figures compiled on the same principle in every district. His Honour will await a full report on the subject from the Board.

The re-writing of Register D of intermediate mutations has now been completed in 36 districts. The number of separate accounts continues to increase at a great rate.

21. *Partitions.*—Partition work is of great importance in the three Divisions of Patna, Bhagalpur and Dacca, and the statistics of the cases instituted and disposed of there are given below:—

DIVISION.	Pending at the close of		Instituted during—		Total for disposal during the year—		Disposed of during—		Pending at the close of
	1897-98.	1898-99.	1898-99.	1899-1900.	1898-99.	1899-1900.	1898-99.	1899-1900.	1899-1900.
1	2	3	4	5	6	7	8	9	10
Patna ...	917	833	175	162	1,092	995	259	246	749
Bhagalpur ...	126	123	32	23	158	146	35	38	108
Dacca ...	426	341	31	23	457	364	116	90	274

The number of cases instituted decreased in the Patna Division by 15, in the Bhagalpur Division by 9, and in the Dacca Division by 8. The disposals fell off in the Patna and Dacca Divisions.

In Darbhanga and Saran the proceedings in 57 and 20 cases, respectively, have been stayed, pending the completion of the survey operations. Little progress appears to have been made in the latter district during the year.

In the Dacca Division the decrease in the number of institutions and disposals is attributed to the passing of the New Estates Partition Act, V (B.C.) of 1897. The Lieutenant-Governor observes with satisfaction that much attention was given by Mr. Savage, the Commissioner, to this branch of collectorate work, and that in the opinion of the Board it is now well in hand in the Division.

Forty applications were struck off under section 11 of the Act.

The Board have, in response to a call from Government, obtained information from the Commissioners and District Officers about the effect of the preparation of a previous record of rights under the new Act in preventing the occurrence of undue enhancements of raiyats' rent; and they observe:—

"The Act has not been long enough in force to enable any definite conclusions to be drawn from what has happened in the cases in which partitions have been completed under the new Act, but they believe there can be little doubt that the enhancements which occurred under the old Act will now be a thing of the past."

The average cost per acre of partitions completed during the year varied from Re. 1-1-2 in Patna to Annas 4-6 in Rajshahi.

The Lieutenant-Governor is glad to learn that the Board are preparing a scheme for securing uniformity of practice and simplification in the keeping of partition accounts.

22. *Land Acquisition.*—During the year the Board confirmed the proceedings connected with the acquisition of 3,264 acres, at a cost of a little over $9\frac{3}{4}$ lakhs. The details appear from the list below:—

Purpose for which lands taken up.	Area of land.	Revenue abated.	Cash compensation paid, including other charges.
	Acres.	Rs.	Rs.
Government	771	10	57,534
Irrigation	86	30	12,506
Municipalities	91	111	4,59,000
Railways	1,969	483	3,88,836
District Boards	347	129	61,086
Total ...	3,264	763	9,78,962*

* Besides this sum Rs 1,006 was paid for 11 poles of land acquired for the Calcutta Port Commissioners.

The average cost per acre amounted to Rs. 300, or omitting specially costly projects, Rs. 133. The corresponding figures of the previous year were Rs. 194 and Rs. 125. The most important railway projects in progress at the end of the year are the Hajipur-Katihar extension of the Tirhut State Railway in the districts of Monghyr and Bhagalpur; the Barun-Daltonganj Railway in Palamau and Gaya; the Singjani-Jagannathganj extension of the Mymensingh-Singjani-Jagannathgunj Railway in Mymensingh; the Santragachi-Howrah section and the Shalimar Branch of the Bengal Nagpur Railway; the Brahmaputra Sultanpur Branch of the Eastern Bengal State Railway in the districts of Bogra and Rangpur; the Eastern, Western and Southern extensions of the Bengal Duars Railway in the districts of Rangpur and Jalpaiguri; the Santrabari extension of the Cooch Behar State Railway; and the Jharia Branch line from Kharagpur to Midnapore. Important projects in the town and suburbs of Calcutta were in progress, 255 acres being taken up, for which Rs. 3,89,248 was paid as compensation for the land and buildings thereon.

23. *Kanungos and Patwaris.*—The Board's further report, on the introduction of the Patwari system into Orissa for the maintenance of the settlement records has been received, and is being dealt with by Government. Pending the decision of this question, the retention of the establishment of Patwaris in the Pataspur temporarily-settled estates in Midnapore continues on the old footing.

24. *Advances under the Land Improvement Loans Act.*—Out of a total amount of Rs. 2,19,950 applied for by the Collectors for advances under the

Land Improvement Loans Act, XIX of 1883, the sum of Rs. 1,60,630 was allotted for distribution, of which owing to the favourable crops of the year only Rs. 55,588 was actually disbursed, as against Rs. 35,268 in the preceding year.

The report does not clearly distinguish between advances under the modified (famine) Rules of 1896-97, and those made under the ordinary rules, and it would appear that in some cases the sums granted under the former rules have been excluded from this return. The percentage of collections is reported to have fallen from 80 to 73, and the results were unsatisfactory in Bankura, Hooghly, Rajshahi, Backerganj, Chittagong, Gaya, Shahabad, Saran, Champaran, Muzaffarpur, and Monghyr. Famine in the Chota Nagpur Division accounts for the poor collections there; and in the case of some other districts partial explanations have been given. These loans are however in theory given, frequently in large sums, to perfectly solvent men of position after careful enquiry, and the Lieutenant-Governor is afraid that the poor results obtained in a year of at least normal prosperity over the greater part of the province point to a certain remission of activity, which he trusts will not continue.

25. *Advances under the Agriculturists' Loans Act.*—A total sum of Rs. 67,489 was advanced under the Agriculturists' Loans Act.

The demands, collections and balances on account of advances under this Act during the year are shown below:—

	Rs.
Outstanding advances	7,45,623
Demand (principal *plus* interest) falling due during the year	6,59,279
Collections (principal plus interest) during the year ...	3,96,803
Percentage of collections on demand	60·1
Remissions	1,892
Balance at the close of the year	2,60,564

The Lieutenant-Governor is constrained to express great disappointment with these results; though in some districts the collections were very good, notably in Nadia, Shahabad, Saran, Cuttack, Hazaribagh, and Manbhum, yet in others they were poor to a degree that requires explanation. In Bankura they were only 53 per cent. of the demand, in Muzaffarpur 55 per cent., in Bhagalpur 50 per cent., and in Gaya and Champaran they fell as low as 44 and 38 per cent., respectively. In Rangpur and Pabna also the small amounts outstanding were not collected in full. It is desired that the Board will give their attention to these apparent failures, which point either to want of energy in collection, or the existence of local distress which has not been brought to the notice of Government. The Board has separately been asked to consider the desirability of bringing the *takavi* registers and the annual returns into closer harmony.

26. *Relations between landlord and tenant.*—The Board has again submitted a careful and most interesting report on the relations between landlords and tenants in the various Divisions of the Province. They repeat the opinion which they expressed last year, that the old patriarchal and generally friendly relations are fast passing away, and that this change is resented and strenuously resisted by the zamindars; and they are convinced that though the period of transition will last for several years to come and show similar results, the raiyats will eventually be able to secure, and to hold against all comers, the strong legal position which the Bengal Tenancy Act has given them.

After enumerating the most striking cases of disturbance in the relations between the zamindars and their raiyats they proceed:—

"The Commissioner (Burdwan) thinks much more might be done than is now done towards bringing landlords to a proper sense of their duties by withholding titles from those whose amla have been convicted of offences of this kind, by withdrawing titles once given, and by a standing order that the arms' licenses of any zamindar whose servants are so convicted shall be cancelled and their renewal withheld for five or ten years. The Board, without committing themselves to the approval of any hard-and-fast rule, believe that possibly something might be done by Government to supplement the action of the Criminal Courts, or to replace it where they fail, as is frequently the case where rich zamindars are concerned, to whom the heavy expenditure on litigation is no deterrent."

The Lieutenant-Governor would be glad if the Board of Revenue would report to him at the time cases, in which violence or fraud on the part of landlords have been brought to their notice. He notices with marked approval the prompt action taken by the Collector of Rangpur in punishing and preventing agrarian disputes in his district, but it is essential that such action, if it is to be effective, should be prompt, and a description of the misdeeds of landlords in the pages of an annual report is apt to be too late to be of practical value in specific instances.

27. *The Bengal Tenancy Act.*—The Bengal Tenancy Act is generally reported to have worked smoothly. The working of some of its most important sections in the various Divisions of the Province is shown below :—

The Board observe that although particular causes may deter landlords and tenants from resorting more freely to the provisions of particular sections of the Act, there is no doubt that the Act, as a whole, is increasingly appreciated by all classes owning and cultivating land. The Lieutenant-Governor is not prepared to insist that the above table would seem to point to an opposite conclusion, inasmuch as it is possible that voluntary contracts are conforming more and more to the principles of the Act.

A careful watch should be kept by the Board on the working of the appraisement sections, with a view to ascertain what, if any, amendments are required in order to prevent the existing provisions of the law being abused by unscrupulous landlords.

The questions of legislation for the amendment of the Chota Nagpur Landlord and Tenant Procedure Act I (B.C.) of 1879, so far as the districts of Hazaribagh, Ranchi, Palamau and Singhbhum are concerned, and the extension of the Bengal Tenancy Act to the district of Manbhum, are under the consideration of Government.

28. *Rent Suits.*—The number of suits tried in Revenue Courts under the provisions of Acts X of 1859 and I (B.C.) of 1879 during the years 1898-99 and 1899-1900 are compared below:—

Districts.	No. of cases instituted. 1898-99.	1899-1900.	Increase.	Decrease.
Darjeeling	205	100	...	105
Jalpaiguri	4,825	46	...	4,779

Palamau	309	386	77	...
Total ...	32,606	34,541	6,938	5,003

The decrease in Jalpaiguri is due to the introduction of the Bengal Tenancy Act.

29. *Miscellaneous.*—During the year 884,251 cases of all kinds were instituted, and 150,405 cases were pending from the previous year. The cases disposed of numbered 873,351. The corresponding figures for the previous year were 809,865 and 791,526.

31. *General.*—The thanks of the Lieutenant-Governor are due to the Board for their energetic and efficient supervision of the Revenue Administration of the Province, and for their admirable and complete report. He is specially indebted to Mr. Toynbee for the minute attention he has given to the work of the District Officers. He has effected a marked improvement in many branches of the administration, and he has set them a notable example of that attention to detail which is at the bottom of a Collector's success. The paragraphs relating to the several district and subordinate officers mentioned as deserving of special commendation will be communicated to the Appointment Department.

By order of the Lieutenant-Governor of Bengal,

F. A. SLACKE,

Secretary to the Govt. of Bengal.

APPOINTMENT OF A COMMISSION TO ENQUIRE INTO THE WORKING OF THE CALCUTTA PORT TRUST.

No. 2074Marine.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

MARINE.

Dated Calcutta, the 30th October 1900.

RESOLUTION.

READ—

Letter of 3rd April 1900 from the Secretary, Calcutta Trades' Association.
Letter Nos. 647-1900 of 1st May 1900, from the Secretary, Bengal Chamber of Commerce.

IN the letters read above the Calcutta Trades' Association and the Bengal Chamber of Commerce addressed the Government of Bengal on the subject of the Calcutta Port Trust. The Chamber of Commerce had, previously, been in communication with the seven representative Associations noted in the margin and forwarded to Government letters from each of those bodies. All these communications represented the desirability of appointing a Commission. The general opinion of the Associations was that the Commission should consider the question of the present and future management of the Calcutta Port Trust and draw up a scheme for the more efficient and economical management of its affairs. The arguments advanced by the Bengal Chamber of Commerce were that the efficient management of the Port Trust is a matter of cardinal importance to the Commercial community, and to the public generally: that there is, at present, an absence of that confidence in the administration of the Port Trust which it is essential should exist: and, that a Commission would, in addition to disclosing any weak points which might exist, probably restore public confidence. The Chamber of Commerce were also of opinion that a Commission would, probably, bring prominently to light the good work which has been done, and the additional facilities which have been provided for trade generally, during the last twenty years.

2. The evidence which has, so far, been brought before the Lieutenant-Governor does not lead him to question the efficiency of the administration of the Calcutta Port Trust; but, in view of the unanimous request for a commission of enquiry, His Honour accepts the recommendation of the Calcutta Trades' Association and the Bengal Chamber of Commerce and of the other representative bodies. When the administration of a public body has been publicly challenged, it is best, in all interests, that the matter should be thoroughly sifted. Further, it is desirable, from time to time, to review the position of all considerable undertakings, and this appears to be a suitable time to consider and review the position of the Port Trust. The great Capital Works of the Trust, so far as they can be foreseen, are approaching completion. A very rapid increase in the demand on the appliances of the Port has taken place during the last few years, and there is no doubt that a discussion, such as a commission will ensure, will be useful in deciding on the final arrangements that are necessary to enable full advantage to be taken of those conveniences.

3. The Lieutenant-Governor has therefore been pleased to appoint the following gentlemen as members of the Committee:—

The Hon'ble E. N. Baker, C.S.I.	*President.*
The Hon'ble G. H. Sutherland, President of the Chamber of Commerce and partner in the firm of Messrs Begg Dunlop and Company	*Members.*
The Hon'ble Sir Allan Arthur, Kt. partner in the firm of Messrs. Ewing and Company	
Sir Patrick Playfair Kt. C.I.E., partner in the firm of Messrs. Barry and Company	
Mr. G. F. Dumayne, Secretary of the Bombay Port Trust	
" A. Muirhead, General Traffic Manager, G. I. P. Railway ..	
" J. Lightfoot, Manager, Eastern Bengal State Railway	
" E. R. Gardiner, Under-Secretary to the Government of Bengal, Public Works Department	*Secretary.*

4. The issues to be considered by the Committee are as follows:—

(1) How far can the present management of the Port Trust be improved,
(a) with regard to efficiency?
(b) with regard to economy?

(2) Should the profits of one part of the trust property be used to meet deficits on another, or should they be kept entirely separate?

(3) Should the offices of Vice-Chairman and Chief Engineer be separated on the expiration of the term of office of the present incumbent, and if so, what other changes, if any, on the present organization are desirable?

5. The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermogra[p] and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All t[he] thermometers are verified and the readings have been corrected to a standard constructed and verified at t[he] Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four f[eet] above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. [...] formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed [by] the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

⌂, dew; o, overcast; g, gloomy; d, drizzling rain.

REVENUE DEPARTMENT—(OPIUM).

NOTIFICATION—No. 2345T.—R.

The 2nd November 1900.—It is hereby declared that a competitive examination for four appointments in the Opium Department will be held in February 1901. At this examination only such European and Eurasian candidates as have been nominated by the Lieutenant-Governors of Bengal and the North-Western Provinces, each of whom is authorised to make as many nominations as he considers necessary or desirable, subject to ultimate approval by the Lieutenant-Governor of Bengal, will be permitted to present themselves.

It must be clearly understood by competitors that the candidate who may be declared successful will not be entitled to obtain permanent appointments in the grade of Assistant Opium Agents, until a permanent vacancy occurs in that grade, nor until he has complied with the conditions of rule 12, but it is the intention of Government to appoint him at once,

to duty in the Department as an Officiating Assistant Opium Agent on a salary of Rs. 140 a month. If within two years of his appointment he succeeds in passing the Departmental Examinations, and is well reported on, and there is a vacancy in the Department at the time, he will be appointed on a salary of Rs. 200 per mensem. His pay thereafter will rise with length of service according to the following scale and the rules governing service in the Department :—

Years of service.	Pay.
	Rs.
1, 2, 3	200
4, 5, 6	250
7, 8, 9, 10	300
11, 12, 13, 14	400
15, 16, 17, 18, 19	500
20, 21, 22, 23, 24	600

After 24 years' service all increases of pay will depend upon the occurrence of vacancies in the four highest grades of Sub-Deputy Opium Agents, viz., 4th grade on Rs. 700, 3rd grade on Rs. 800, 2nd grade on Rs. 900, and 1st grade on Rs. 1,000. Should a successful candidate not be provided with a permanent appointment within two years of his appointment, he will draw a personal pay of Rs. 170 a month, provided he has fully passed his departmental examinations and is well reported on.

2. A certificate of health and physical fitness, signed by a covenanted medical officer, in the form given in the margin, will be required from each candidate, who should also furnish a copy of his baptismal certificate, in the absence of which sufficient evidence as to age should be forwarded with the application for admission to the examination. No one whose age will be below 19 years on the 1st February 1901, or above 22 years on the 1st March, will be permitted to appear.

> I do hereby certify that I have examined Mr. , a candidate for employment in the Opium Department, and that he has no disease, affection, or bodily infirmity, and is in my opinion possessed of a robust constitution, well fitted for the performance of the duties appertaining to such an appointment. His age is according to his own statement years and by appearance about years.

3. A certificate that the candidate is able to ride and is of active habits, signed by a District Magistrate or by a Presidency Magistrate or the Commissioner of Police, in the case of applicants residing in Presidency towns, should also be submitted.

4. Applications for nominations by the Lieutenant-Governor of Bengal, accompanied by the necessary certificates, must be sent to the Under-Secretary to the Government of Bengal, in the Revenue Department, on or before the 1st January 1901. Such applicants as are granted nominations will receive an intimation to that effect, and be required to pay a fee of Rs 20 before they can appear at the examination. The fee is payable to the Under-Secretary aforesaid.

5. The examination will be held in Calcutta: the date and place of the examination and the order in which the different subjects will be taken up will be notified hereafter to such candidates as are allowed to present themselves at the competition.

6. The examination will be by written questions and answers and *vivâ voce*.

The subjects of examination and the number of marks to be allotted will be as follows:—

I.—Preliminary—

	Marks.
(1) Dictation	100
(2) English composition (*i.e.*, essay or *précis* writing) ...	100
(3) Arithmetic (the whole)	100

II.—Obligatory—

(4) Algebra (up to and including Quadratic Equations) and Plane Trigonometry (including solutions of triangles and mensuration)	100
(5) Euclid, Books I, II, III, IV and VI	100
*(6) English History	100
*(7) Indian History	100
(8) English Literature	100
(9) Hindustani— *Urdu*—Translation of easy passages from English into Urdu; reading at sight from a book such as the Bagh-o-Bahar; conversation. *Hindi*—Translation of some piece into Hindi character; reading at sight from a printed book, such as the Baital Pachisi.	150

III.—Optional—

(10) Latin (200) and French (150)	350
or	
(11) Botany (150) and Chemistry (150)	300

* Questions on these subjects may also include questions relating to the Geography of these countries.

No text-books are prescribed for the different subjects, except for the subjects included in No. (11)—Botany and Chemistry. The text-books for these subjects are—

(a) Oliver's First Book of Indian Botany.

(b) Inorganic Chemistry, Theoretical and Practical, by W. Jago.

7. No books of any kind will be allowed at the time of examination.

8. Candidates who fail to obtain half the marks in each and all of the three subjects of the preliminary examination shall not be allowed to proceed further with the examination in the remaining subjects. The examination in the obligatory and optional subjects will not be held until the papers of the preliminary examination have been examined and marked, for which an interval of a day or two will ordinarily be allowed to the Examiners, and a list of the candidates successful in the preliminary examination will be published forthwith at the place of the examination.

9. In the obligatory subjects each candidate must obtain at least one-third of the marks allotted to each paper to be considered to have passed in that paper and half of the marks in the aggregate. Should no candidate obtain the minimum of qualifying marks according to this standard, the appointment will be made by His Honour the Lieutenant-Governor of Bengal in such way as may be deemed proper.

10. The candidates will only be allowed to take up either, but not both, of the groups of the optional subjects, and the marks obtained will count towards the aggregate total.

The candidates must state in their applications which of the groups they will take up.

11. The candidates will be placed in order of precedence according to the aggregate number of marks obtained by them, and appointments will be made accordingly.

12. Candidates appointed to the Opium Department after examination will be considered as probationers for the first two years of their service. The confirmation of a candidate in the Department will depend on his passing the Departmental Examinations and on the periodical reports submitted by the Opium Agents, showing the industry and intelligence with which he discharges his duties and his aptitude for service in the Department as displayed during the period of probation. He will be liable to be removed if he fails to pass all examinations within this period, or if his conduct is unsatisfactory and he is reported to be unfit for confirmation.

F. A. SLACKE,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 3456J.

The 2nd November 1900.—In exercise of the powers conferred by the Stage Carriages Act, 1861, section 20A (added by Act I of 1898, section 4), the Lieutenant-Governor is pleased to make the following rules to carry out the purposes and objects of the said Act in all parts of Bengal to which the Act is applicable:—

Preliminary.

Definitions.

1. In these rules,—

(*a*) "licensing authority" means a Magistrate empowered by or under rule 2 to grant a license; and

(*b*) "the Act" means the Stage Carriages Act, 1861, as amended by subsequent Acts.

By whom licenses will be granted.

By whom licenses will be granted.

2. Licenses for stage carriages and for drivers of such carriages shall be granted by the District Magistrate or a Magistrate specially empowered by him in this behalf.

Licensing of Stage Carriages.

Fees for licenses.

3. (*1*) The fee payable for a license for a stage carriage shall be as follows:—

(*a*) in the case of a stage carriage drawn by a camel or camels, Rs. 5;

(*b*) in the case of a four-wheeled stage carriage drawn by a horse or horses or by two or more ponies, Rs. 4;

(*c*) in the case of a two-wheeled stage carriage drawn by one or more horses or ponies, Rs. 3; and

(*d*) in the case of any other stage carriage, Rs. 2.

(*2*) The said fee shall be payable at the time of applying for the license.

Applications for licenses.

4. (*1*) Every application for a license for a stage carriage shall be made to the licensing authority in writing, and shall clearly set forth—

(*a*) the name of the proprietor of the stage carriage;

(*b*) the address of the said proprietor;

(*c*) the place at which his head office is held;

(*d*) the maximum number of passengers which it is proposed to carry in or on the carriage at one time;

(*e*) the maximum weight of luggage which it is proposed to carry in or on the carriage at one time;

(*f*) the kind of animals which it is proposed should draw the carriage, and the minimum number and height of such animals to be harnessed to the carriage at one time;

(*g*) the maximum number and length of stages for which it is proposed that any animal or set of animals should draw the carriage in one day; and

(*h*) the maximum rates of fare to be charged for the use of the carriage for the conveyance of passengers or luggage.

(2) The particulars referred to in clause (h) of sub-rule (1) may vary according to the season of the year and the nature of the roads to be traversed.

Refusal of license.

5. The licensing authority may refuse to grant a license for a stage carriage if a license previously granted to the applicant has been revoked under rule 7 or if the licensing authority considers—

(a) that the carriage is unserviceable or is unsafe or unfit for public accommodation or use;

(b) that the information furnished in the application is not sufficiently full and explicit;

(c) that the maximum number of passengers or weight of luggage which it is proposed to carry in or on the carriage is excessive;

(d) that the minimum number or height of the animals which it is proposed should draw the carriage is insufficient;

(e) that the proposed number or length of stages is excessive;

(f) that the proposed maximum rates of fares are excessive; or

(g) that the stabling provided for animals which it is proposed should draw the carriage is unsuitable or insufficient or situated in an improper place.

Form of license.

6. Every license for a stage carriage shall be in the form in the Schedule to these rules, or in a form to the like effect.

Suspension or revocation of license.

7. Any license for a stage carriage may be revoked or suspended by written order of the licensing authority—

(a) if the licensee is convicted of any offence against the Act or these rules; or

(b) if the licensing authority is satisfied that such an offence has been committed in respect of such carriage by or with the knowledge of the licensee; or

(c) if, in the opinion of the licensing authority, the carriage, or any animal or any harness used with the carriage, is unserviceable or unsafe or otherwise unfit for public accommodation or use; or

(d) if the licensee fail to maintain the stabling provided for the animals in a suitable and sufficient condition.

Change of proprietor's address.

8. Every proprietor of a stage carriage shall give notice to the licensing authority of any change in his address or in the place of holding his head office.

Offences.

9. No proprietor or driver of a stage carriage shall—

(a) cause or permit the carriage to be drawn by animals of a less height than is specified in the license, or

(b) cause or permit the carriage to be drawn by any animal or animals for stages of a greater number or length than is specified in the license, or

(c) demand or permit to be demanded any fare in excess of that specified in the license.

Inspection of Stage Carriages.

Appointment of Inspectors.

10. The following persons shall be Inspectors of Stage Carriages under the Act, namely:—

(a) all stipendiary Magistrates;

(b) all police-officers of or above the rank of Sub-Inspector; and

(c) any other person specially appointed in this behalf by the District Magistrate.

Inspection.

11. (1) Any Inspector of Stage Carriages may at any time enter upon any premises where a stage carriage, or any animal ordinarily employed to draw a stage carriage, is kept, and may inspect such carriage or animal.

(2) The licensee and the driver of any stage carriage shall be bound to afford all reasonable facilities for the inspection of such carriage or any animal employed to draw the same.

Other provisions as to Stage Carriages.

12. (*1*) If any person undertakes to pay such amount as will, according to the rates of fare specified in the license, entitle him to the exclusive use of any stage carriage, then the driver shall not permit any other person to enter the carriage without the consent of the person who has made such undertaking.

Hiring of stage carriage.

(*2*) The licensee or driver of a stage carriage shall not without reasonable excuse refuse to hire his carriage to any person who desires to engage it.

13. The stabling provided for the accommodation of any animal employed to draw a stage carriage must be good and sufficient, and must be kept clean and supplied with water.

Stabling.

Lamps.

14. (*1*) The licensee of every stage carriage shall provide it with not less than two serviceable lamps and with the means of lighting the same.

(*2*) Every stage carriage shall between sunset and sunrise carry two lights, of which one shall be affixed to the near side and the other to the off side of the carriage, unless there be sufficient moonlight to justify the absence of such lights.

Licensing of Drivers of Stage Carriages.

15. (*1*) The licensing authority may, in his discretion, grant to any applicant approved by him who is over sixteen years of age a license to act as driver of a stage carriage.

Grant and continuance of license.

(*2*) Every such license shall be signed by the authority by whom it is granted, and shall contain—

(*a*) the number of the license;

(*b*) the name, father's name, place of abode and age of the licensee;

(*c*) a description of carriage and animals which the licensee is licensed to drive; and

(*d*) the date on which the license is granted.

(*3*) For every such license there shall be paid a fee of eight annas.

(*4*) Every such license shall continue in force for one year from the date thereof, unless it be sooner revoked or suspended.

16. (*1*) No person shall act as driver of a stage carriage without having a license in force for the time being, and no licensed driver of a stage carriage shall transfer or lend his license to, or allow it to be used by, any other person.

Prohibitions as to driving without license.

(*2*) No licensee of a stage carriage shall suffer any person not duly licensed under rule 16 to act as driver of such carriage.

17. (*1*) The licensing authority shall, at the time of granting a license to any driver of a stage carriage, deliver to him a metal ticket marked or engraved with a number corresponding with the number of his license.

Delivery and wearing of driver's ticket.

(*2*) Every driver to whom such a ticket is delivered shall, at all times while acting as driver or while attending before any Magistrate, carry such ticket exposed to view.

18. If, during the currency of a license granted to any driver, the number of the ticket delivered to him becomes indistinct or obliterated, or if the ticket delivered to any driver is lost or stolen, the driver shall produce his license to the licensing authority, together with the said ticket if in his possession, and shall then be entitled to have a new ticket delivered to him.

Delivery of new ticket.

Prohibition of use of indistinct ticket.

19. No licensed driver shall use or wear the ticket granted to him after the writing thereon has become indistinct or obliterated.

Delivery to licensing authority of tickets which were lost or stolen.

20. If any ticket which was lost or stolen is afterwards recovered, the same shall forthwith be delivered to the licensing authority.

21. Within three days after the expiration or other determination of any license granted to a driver under these rules, such driver shall deliver such license and the ticket relating thereto to the licensing authority.

License and ticket to be delivered on expiry.

22. (1) No person shall use, wear or detain any driver's license or ticket after such license has expired or been determined, or any driver's license or ticket other than one duly delivered to him under these rules.

Further prohibitions as to drivers' licenses and tickets.

(2) No person to whom a driver's ticket has been duly delivered under these rules shall lend such ticket to any other person.

(3) No person shall wear or use a driver's ticket which was delivered under these rules to any other person.

23. No person shall, for the purpose of deception, use or wear any ticket resembling, or intended to resemble, any ticket granted under these rules.

Using or wearing counterfeit ticket.

24. Any police-officer, or any person employed for the purposes of the Act by the licensing authority, may seize and take away any counterfeit ticket or any ticket relating to a license which has expired or been determined, wheresoever the same may be found, and shall thereupon deliver the same to the licensing authority.

Seizure of counterfeit ticket.

25. Whenever any driver is summoned to appear before a Magistrate to answer any charge preferred against him under the Act or these rules, he shall carry his license with him and produce the same if required so to do.

Production of license before Magistrate.

26. Any Magistrate, on convicting any driver of an offence against the Act or these rules, may endorse on his license the nature of the offence, the date of the conviction and the amount of the fine inflicted.

Endorsement of conviction on driver's license.

27. (1) Any Magistrate before whom any driver is convicted of any offence against the Act or these rules may revoke the license of such driver or suspend the same for such time as the Magistrate may think proper, and for that purpose may direct the driver, or any other person in whose possession such license and the ticket thereto belonging may then be, to deliver up the same.

Revocation or suspension of driver's license on conviction.

(2) Every driver or other person to whom a direction is given under sub-rule (1) shall be bound to obey the same.

() The Magistrate shall forward every license and ticket so delivered up to him to the licensing authority, together with a memorandum of his sentence in the case.

(4) The licensing authority shall enter the fact of such sentence and revocation or suspension in the book prescribed in rule 29; and, if a license has been so suspended, the licensing authority shall, on application at the end of the time of suspension, redeliver such license, and the ticket relating thereto, to the licensee.

Record as to Licenses.

28. The particulars of every license granted under the Act or these rules shall be entered in books to be kept for that purpose at the office of the licensing authority; and a certified copy of such particulars shall be furnished to any person who applies for the same at any reasonable time.

Record of particulars as to licenses, and grant of certified copies.

Fines.

Fines.

29. Any breach of any of the following rules shall be punishable as follows, that is to say,—

breach of rule 8, rule 9, rule 11, sub-rule (2), rule 12, rule 13, rule 14, rule 15, rule 17, sub-rule (1), rule 22, rule 23 or rule 28, sub-rule (2)	fine which may extend to Rs. 20;

ORISSA CIRCLE.

OFFICE MEMORANDUM OF THE INSPECTOR OF SCHOOLS, ORISSA CIRCLE.

Rules for appearing at the F.A. and B.A. Examinations in 1901 for candidates from the Orissa Circle who are not students of any affiliated institution.

DEPUTY INSPECTORS OF SCHOOLS, Sub-Inspectors of Schools and *boná fide* teachers of recognised English schools who have served as such for the full period of two academical years or for a term of six months after an examination of the same class last held by the University in the case of those only who were admitted to a former examination of that class will be admitted to the abovementioned examinations. All applications from school masters should be accompanied by certificates of length of service from the Secretaries of the schools in which they are employed, and should reach this office not later than the 5th January 1901. The application of a school master for permission to appear at the F.A. or B.A. Examination should be signed by him in the presence of the Secretary or a member of the Managing Committee of the school in which he is employed. The application should be forwarded to the office of the Inspector of Schools, Orissa Circle, for countersignature, together with the Registrar's receipt to prove, if this be the case, that the candidate has appeared at the examination in a previous year, and the certificate in proof of his having passed the Entrance or F.A. Examination, as the case may be. Such papers will be sent back to him (the candidate), who will have to send them, together with the examination fee, to the Registrar of the University direct.

2. Candidates should read carefully the form of the certificate which the Inspector of the Circle will sign, and should be careful to supply all information and documents required, including the Registrar's receipt, in the case of those who have been admitted to a former examination of the same class, without which the Inspector must decline to sign the certificate applied for.

3. By *boná fide* teachers of schools are to be understood teachers who hold regularly paid appointments in English schools teaching at least the Middle English course.

CUTTACK,
The 11th October 1900.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned bahal and bajiafti lands situate in the district of Balasore as escheated to Government being left by Taramoni Dassi of Balikuti, pargana Satmolang, who died intestate and without heirs, will be put up to sale at the Balasore Collectorate on the 8th November 1900, corresponding to 24th Kartik 1308 B.S.

The purchasers will be subject to the following conditions of sale :—

Conditions of Sale.

1st.—The lands to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of the lands will be considered as the proprietor of the lands, and the entire proprietary right of Government in such lands will be transferred to him free of revenue in respect of bahal and with the settlement rent in respect of bajiafti lands.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the lands to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

CALCUTTA CORPORATION.

THE following draft of Bye-laws made by the General Committee under section 562 of Act III of 1899 are published in accordance with the provision contained in section 565 (*a*) of the abovementioned Act.

W. R. MACDONALD, Secretary to the Corporation.

Municipal Office, the 5th November 1900.

Proposed Bye-laws specifying the manner in which stables, cattle-sheds and cow-houses (subject to section 466) are to be constructed and connected with the Municipal drains.

1. Every new stable, cattle-shed and cow-house and every extension of an existing stable, cattle-shed and cow-house and every existing stable, cattle-shed and cow-house reconstructed or materially altered, shall be a detached building and not within 15 feet of any dwelling, and shall have a clear space open to the sky of not less than 6 feet measured from eaves on all sides of the stables, cattle-shed or cow-house.

2. Every stable, cattle-shed and cow-house newly constructed, extended, reconstructed or materally altered shall conform to standard type plans approved by the General Committee, copies of which can be had on application and payment of a fee of Re. 1.

3. Before beginning to build, extend, reconstruct or materially alter any stable, cattle-shed or cow-house, the sanction of the Chairman shall be obtained; and with the application for such sanction (*a*) a plan and longitudinal and cross-sections of the proposed construction showing the provision proposed to be made for the drainage, lighting, and ventilation of, and supply of water to, the same; and also (*b*) a site plan of the locality showing the relative position of the proposed construction with regard to all buildings and streets within 40 feet, shall be submitted for the Chairman's approval.

4. Every stable, cattle-shed or cow-house shall be subject to section 466 (*vide* 456) and shall be properly paved, drained, lighted, ventilated and supplied with water by the owner to the satisfaction of the General Committee.

5. Every stable, cattle-shed and cow-house shall be well paved by the owner with asphalt, stone, brick-on-edge with cement-pointing, flag-stones set in cement, or other suitable impervious material and shall have a channel or gutter sloping towards a gully or, in the unsewered area, a cess-pit, which shall be situated immediately outside the building and shall be subject to Schedule 16 of the Act.

6. In the unsewered area such cess-pit shall be constructed of bricks set in cement and cement-plastered or other suitable impervious material and so constructed as not to admit of rain water.

7. Every stable, cattle-shed and cow-house shall be properly lighted and ventilated; an open space of not less than 2 feet below the junction of eaves and the wall of the building shall be kept open on all sides for light and ventilation, in addition to other openings that may be required.

8. Every stable, cattle-shed and cow-house shall be provided by the owner with an adequate supply of filtered water.

9. No well shall be allowed on the premises of a stable, cattle-shed or cow-house.

10 Every stable, cattle-shed and cow-house shall be provided on the outside, but protected from the rain, with an iron bin or other suitable receptacle for keeping dung and other refuse. All dung retained for the preparation of cakes shall be kept in this receptacle, and not allowed to accumulate on the ground.

11. In case of the material alteration of a stable, cattle-shed or cow-house, not more than two-thirds of the area of any site shall be built upon; the remainder shall be kept open to the sky, and shall be paved with impermeable material and provided with a drain subject to Schedule 15 of the Act.

12. If on any such site more than one range of stables, cattle-sheds or cow-houses be constructed, reconstructed or materially altered, these shall be so disposed as to form three sides of a parallelogram, with an open yard in the middle.

13. On every cow-house premises for keeping milch-cows or buffaloes a separate shed or place shall be provided for the temporary storage of milk and the keeping of milk vessels, and no such shed or place shall communicate with a cow-house.

14. The qualifications required before a license is granted to any person shall be as follows:—

The applicant must have served at least two years with an authorised firm of House Drainage Contractors, and must satisfy the Chairman that he is personally acquainted with the details of the work; he must also furnish proof of respectability and establish a place of business, and possess the necessary stock to enable him to carry out with despatch the works which from time to time may be entrusted to him.

Proposed Bye-laws regulating the construction and cleansing of privies and urinals.

1. No service-privy shall be constructed, reconstructed or materially altered under any room other than a privy.

2. The cesspool for every service-privy in the unsewered area shall be situated immediately outside the privy.

3. The platform and floor of every service-privy must have a fall or inclination of a least half an inch to the foot towards the drain prescribed in Schedule XVI, Rule 5.

4. The trap-door of every service-privy must be not less than 4 square feet in area.

5. No connected-privy shall be allowed above or below any room other than a bath-room or another privy.

6. Every connected-privy must be provided with a supply-tank not less than 100 gallons in capacity for every seat, or for every twenty persons.

7. The flush-pipe connecting the cistern with the pan shall not be less than 1¼ inch in diameter.

8. Every water-tap of a connected-privy shall be syphon-proof, and where anti-syphonage pipe is required, its sectional area shall be not less than one-fourth the sectional area of the soil-pipe.

9. No pure air inlet shall be fixed near any door, window, ventilating grating or chimney, unless it is provided with a talc-valve.

10. Every urinal shall be constructed of impervious material and connected with a Municipal drain.

11. Every urinal must be provided with automatic flushing arrangements and be self-cleansing.

12. Every urinal shall be provided with an airtight trap which must be syphon-proof.

13. The Municipal mehter whose duty it is to remove the sewage of any particular service-privy shall daily remove the sewage from that service-privy.

14. No person shall, without the written permission of the Chairman, obstruct or stop up or cause to be obstructed or stopped up any existing passage for the Municipal mehter to have access to a service-privy.

15. No person shall use or permit to be used any service-privy unless a free passage exists for the Municipal mehter to the privy to remove sewage therefrom.

16. Every occupier of a house, land or premises shall give free access to the Municipal mehter to his privy for the removal of sewage therefrom.

17. The keeper of every licensed public latrine or urinal shall construct, reconstruct or materially alter such public latrine or urinal in such a manner and with such out-offices and appurtenances and water-supply as the Chairman may deem necessary. No such public necessary shall be constructed, reconstructed or materially altered or opened for use without the written permission of the Chairman.

18. The keeper of every such public latrine or urinal shall keep the same at all times clean, and shall provide himself with such number and description of tubs and carts as the Chairman may prescribe for the removal of sewage from such public latrine or urinal, and shall keep the said tubs and carts in such place and in such manner as the Chairman may direct.

19. The keeper of every such public latrine or urinal shall keep all such tubs and carts in good and proper order.

20. The keeper of every such public latrine or urinal shall provide such receptacles for sewage therein as the Chairmain shall prescribe.

21. The keeper of every such public latrine or urinal shall keep a register of all servants employed in its management and cleansing and removal of sewage therefrom, and shall permit the same to be seen by any Municipal Officer, and shall supply servants with such distinctive badges as the Chairman shall prescribe. Every such servant shall produce his badge at all times when called upon to do so by any Municipal or Police Officer.

22. The keeper of every such public latrine or urinal shall remove or cause to be removed all sewage which may collect therein, at least once in every 24 hours, to such place as the Chairman may by written notice, from time to time, direct, and shall dispose of or cause to be disposed of the sewage in such place in such a manner as may be directed by the Inspector in charge of such place.

23. All sewage that has to be removed from a privy, urinal or public latrine shall be conveyed in such tubs or carts, by such routes and between such hours as may be from time to time prescribed by the Chairman.

24. No person employed in such removal shall unnecessarily stop or delay or deposit or suffer to remain any vessel containing or intended to contain sewage on any portion of the said routes or on or by the side of any public street longer than may be necessary for the loading thereof.

25. No person shall drive any cart for the conveyance of sewage at night without a light.

26. A map of the sewerage system of Calcutta and the Suburbs, corrected up to date, shall be kept in the Office of the Engineer, and shall be open to inspection free of charge to all rate-payers between the hours of 12 and 3.

HOUSE DRAINAGE PROPOSED BYE-LAWS.

FOR NEW PRIVIES.

1. A reserve tank should be provided in every case, and it should contain not less than 100 gallons for one privy, 200 gallons for two privies, 300 gallons for three privies, 400 gallons for four or more privies, and should be of galvanised-iron or wrought-iron painted and of 18 guage thick.

2. An anti-syphoning pipe not less than one-fourth of the area of the soil pipe is to be fixed in every case in which the privy or privies are more than one story high.

3. No internal drainage of any premises should be taken in hand unless a plan passed by the Assistant Engineer has been obtained, and must be strictly carried out in every particular, as marked on the said plan; and, once taken up, must not be left unfinished, as otherwise the Licensed Plumber will be held responsible for its completion, and any alteration suggested by the owner otherwise must be approved of and sanctioned by the Assistant Engineer in writing before being carried out.

4. Plans passed prior to this date must be resubmitted to the Assistant Engineer, when permission to connect is applied for.

5. A copy of the house-drainage plan of the premises to be connected must in all cases be produced for reference during progress of the work either by owner or plumber.

6. Licensed Plumbers must in every case inform the Engineer's Office a week before the commencement and after the completion of any house-drainage or privy work.

7. All materials, whether to be used for external or internal work, must be of best quality, and are subject to approval or rejection by the Superintendent. All doubtful or disputed cases are to be submitted to the Assistant Engineer, whose decisions shall be final.

8. All work within as well as without the premises must be executed with due care and in the best and most workmanlike manner.

9. The walls of master-traps and all masonry pits must not be less than 10 inches in thickness and built in cement mortar in the proportion of two parts of best sharp Mugra sand and one part best and pure Portland cement with proper bond as per model plan. The floors of the junctions or bend-pits must be level with, and follow the curvature of the pipe inverts and must be plastered with cement. The inner face of all pits and master-traps must be plastered with cement and made perfectly watertight The master-traps and pits must be provided with thick cast-iron covers, coated with coal-tar, of not less than 18 inches diameter.

10. All connections with pipe-sewers must be made with the pits left in the street sewers, if not by constructing pits. On no account shall any connection be made between the master-trap and the sewer.

11. In junctions with brick-sewers the brickwork round the junction-pipe must be carefully rebuilt with cement as also the inner face of the sewer, and for this purpose the two nearest man-holes must in every case be opened. Man-holes, while opened, must be properly protected by temporary fencing to prevent accidents. Connections with brick-sewers should generally be made at the following heights above invert level:—

	Ft.	in.		Ft.	in.
No. 1 sewer	3	0	No. 6 sewer	2	0
,, 2 ,, ...	2	9	,, 7 ,, ...	1	9
,, 3 ,, ...	2	7½	,, 8 ,, ...	1	7½
,, 4 ,, ...	2	6	,, 9 ,, ...	1	6
,, 5 ,, ...	2	3	,, 10 ,, ...	1	3

12. In the event of the Licensed Plumber encountering difficulties in excavating the requisite depth, he should communicate with the Assistant Engineer and obtain special instructions.

13. All applications for permission to open roads and to connect house-drains with the sewers must be accompanied by fee of Rs. 2 per each connection. In case of works under tram lines, applications must be made two clear days before the day fixed for the work. It must also be certified that the internal drainage has been carried out in conformity with the house-drainage plan.

14. Permission to make sewer-connections on Sunday or at night must be specially applied for, and will be granted only in cases of proved urgency. For Sunday work an additional fee of Re. 1 and for night work an additional fee of Rs. 5 for each connection must be deposited.

15. The different days on which connections may be made in the different wards are notified from time to time on the Notice Board of the Office of the Engineer.

CORPORATION OF CALCUTTA.

WATER-WORKS DEPARTMENT.

PROPOSED BYE-LAWS UNDER SECTION 559, ACT III, 1899.

Sub-section 4.

1. Any owner or occupier desiring a supply of water for use within Municipal boundaries to any masonry house or for any business, trade or purpose shall apply for the same to the Engineer of the Corporation upon a printed form to be obtained at the office of the Engineer or Secretary.

2. In the case of water required for business or trade purposes, the application must also be signed by the person requiring the supply. The name of the Authorised Plumber to be employed is to be stated.

Sub-section 5.

3. The charge for unfiltered water-supplied for other than domestic purposes within Municipal limits will be annas 4 per 1,000 gallons in addition to rent, etc., for water-meter, if fixed. The charge for filtered water for business or any purpose other than a domestic purpose, when used within Municipal limits, will be annas 8 per 1,000 gallons in addition to rent of water-meter, if fixed.

Sub-section 6.

4. The Health Officer shall have a sample of the filtered water supplied to the town tested once a week by chemical and bacteriological analysis.

Sub-section 7.

5. A map of the water-supply system corrected up to date shall be kept in the office of the Engineer and shall be open to the inspection of any rate-payer free of charge between the hours of 12 and 3.

BYE-LAWS UNDER SECTION 559.

Sub-section 8.

1. No Plumber or other workman will be allowed to do or perform any work connected with the supply of water till he shall have been admitted and eurolled by the Chairman as an *Authorised Water-works Plan ber* and shall have entered into an engagement to conform to, and comply with, the Rules and Regulations, for the time being, of the Commissioners. A Plumber's license is granted to persons who are themselves or who engage a workman able to wipe 3-inch T or Y joints and 3-inch straight joints in addition to the ordinary 1-inch T and straight-joints and who satisfies the Engineer that he hss the necessary tools, appliances, etc., for carrying out the work. If at any time afterwards any such Plumber shall be found guilty of breaking or evading the said Rules and Regulations or to contravene any section of the Act, either by himself or by his workman or refuse to communicate any information required of him in regard to any work done by him or his workmen, or under his superintendence, his license may be suspended or his name will be erased from the list of Authorised Plumbers. Plumbers, whose licenses are cancelled by the Chairman, must at once return their licenses to the office of the Engineer.

2. No owner, occupier or consumer of water shall employ any person who has not been admitted as an Authorised Plumber, or any Plumber whose name shall have been struck off the list as aforesaid

3. Whenever a connection is required between a house service-pipe and the Commissioners' mains, the Plumber must present the usual form of application (printed copies of which are always available at the office of the Assistant Engineer, Water-works Department) signed by the owner and occupier of the premises, requiring water for domestic, ornamental or business purposes, as the case may be, at the office of the Engineer to the Corporation.

4. All stop-cocks, taps and ferrules, cisterns or other fittings shall be of a pattern approved of by the Engineer to the Corporation, and such stop-cocks, taps, ferrules, etc., shall not be used in connection with the water-supply unless they have previously been submitted for inspection to a duly appointed officer of the Corporation and stamped by him with a die kept for the purpose.

Stop-cocks, taps and ferrules to be approved of by the Engineer.

5. Should any leakage occur in a communication-pipe, cistern, tap or other water-fittings, the occupier or owner, or, in case of a vacant house, the owner shall, within four days, effect the necessary repairs.

Occupier to effect repairs in case of leakage.

6. The Plumber, after the said application has been passed, must apply to the office of the Assistant Engineer, Calcutta Water-works, for a road opening order, to enable him to lay the communication-pipe. After this he must make two separate applications to the said Office before noon the day previous to the date on which the connection is required,—one for opening out the road and the other for shutting off water, with fee of Re. 1-12 for each new connection, shifting connection and reconnection. When pipes are to be laid, or connection made under the Tramway rails, 48 hours' notice will be necessary.

7. In no instance will any connection be permitted to be made between a communication-pipe and the street service-pipe without the presence of the responsible person on behalf of the Authorised Plumber or Plumbers and of the Inspector appointed by the Commissioners. In the case of any Plumber not filling up the road trench in proper and workmanlike manner, or to the satisfaction of the Commissioners' officers, the road will be made good by the Commissioners' officers at the cost of the said Plumber.

8. Private services may be laid either with galvanized iron tubing, or with lead pipes. The pipes in all cases must be new and capable of withstanding a pressure of a column of water 200 feet in height, and must be of a quality approved of by the Engineer to the Corporation.

9. Lead pipes must be at least of the following weights :—

[illegible] in bore	... ...	$2\frac{5}{8}$ lbs. per yard.
[illegible] ,,	... ...	$3\frac{1}{2}$,, ,,
[illegible] ,,	... ...	$4\frac{1}{4}$,, ,,
[illegible] ,,	... ...	$5\frac{1}{4}$,, ,,
[illegible] ,,	... ...	6 ,, ,,
1 ,,	... ...	$8\frac{1}{2}$,, ,,

All joints are to be wipe-joints.

Galvanised iron tubings must be at least of the following thickness.—

½ inch diameter	... ...	One eighth of an inch.
¾ ,,	... ...	Three-sixteenths of an inch.
1 ,,	... ...	Seven thirty-seconds of an inch.

10. No more bend or elbows than are absolutely necessary will be allowed. No bend will be allowed by heating, and no gradual bend or long sweep such as to cause risk of splitting.

11. In laying down house-connection trenches are to be properly fenced, watched and at night are to be properly lighted. Great care is to be observed in refilling the trenches which are to be well watered and rammed. Authorised Plumbers will be held liable for any damage caused by defective work or trenches.

12. On every communication-pipe a brass stop-cock of the best and approved kind of the so-called "screw-down-cock" having a waterway, equal to that of the pipe to be laid, must be placed outside the premises and as near to the entrance as possible with a cast-iron cover over the same, to indicate the situation of such stop-cock. The cover is to be obtained from the Municipal Workshop.

13 In every instance the communication-pipe must be connected to street service-pipe or main by a brass screw-down ferrule of approved pattern, the size of which shall be determined by the Commissioners.

14. Every pipe, tap, valve or other work laid and fixed by, and at the expense, or for the use of the owner, occupier, or consumer, must be inspected in position by an authorised officer of the Commissioners, before it can be joined to the street service-pipe, and, if found defective, it must be altered to the satisfaction of the Commissioners

15. The drawing bib-taps must in all cases be of brass, and of screw-down or other construction that will not admit of their being closed so rapidly (such as plug and barrel-cocks) as to produce concussion in the pipes, and they must be of the best and approved kind, as manufactured by Messrs. Guest and Chrimes, Messrs. J. Tylor and Sons and other makers with their names stamped on each tap. All taps in public courts, yards or in the compounds or out-offices of any premises and in tenanted lands are to be fitted 3 or 4 feet above ground-level.

16 No tap may be extended, nor may any alteration or addition be made in any existing pipe without the written consent of the Water-works Department.

17. Above ground all pipes must be screened, wherever practicable, from exposure to the sun. Communication-pipes to be not less than 2 feet below surface of ground.

18. Whenever a communication-pipe has to be laid across a public sewer or open drain, or in any place where, in the opinion of the Engineer, it is liable to injury, such pipe must be passed through a cast-iron pipe, of sufficient length and strength to afford due protection to the communication-pipe. No service-pipe must be laid along and through any private drain or water-course or in any place where, in the opinion of the Engineer, there is danger of the water becoming contaminated, and no pipe must be laid through any drain or course in such a manner as in the opinion of the Engineer is likely to cause an obstruction in such drain or course

19. Every cistern must be absolutely watertight and be provided with a ball-cock. All cisterns to be provided with a detective or warning pipe, of lead or galvanised iron, and proper means of access and inspection. Spring-valves are on no account to be fix d in privy flushing cisterns No filtered water cistern is to be placed immediately over or in the same room with a privy.

20. Every water-closet must be provided with a full and complete apparatus, comprising wrought-iron reserve tank, cast-iron service-cistern of the syphon type, ball-valve, basin, trap, etc. No pipe will be allowed under any pretence whatever to communicate directly or indirectly with the basin-trap or otherwise than with the cistern of a water-closet or urinal. No branch will be allowed under any pretence whatever off a supply-pipe to cistern

21. No taps will be allowed on unfiltered water-supply to houses.

22. No house or other premises will be allowed to have more than one supply-pipe, either from the main or from any adjoining premises, unless special sanction is obtained from the Water-works Department.

23. If any Licensed Plumber shall execute any works or put up any fittings within any house or land for the supply of water from the pipes of the Commissioners in a careless or negligent manner, make use of bad materials or fittings or infringe any of the foregoing rules, the said Licensed Plumber shall be liable to have his license cancelled or suspended.

24. Connections will be made in northern part of the town, including the amalgamated area, on Tuesdays, Wednesdays, Fridays and Saturdays, and in the southern part, including the amalgamated area, on Mondays and Thursdays :—

Wards 1 to 4	...	...	...	On Wednesdays and Saturdays.
" 5 to 9	...	...	...	" Tuesdays and Fridays.
" 10 to 25	...	...	...	" Mondays and Thursdays.

PACIFIC OCEAN.

Sailing directions for the Pacific islands.

THE following Notice to Mariners (No. 647 of 1900) issued by the British Admiralty is republished:—

Volumes 1 and 3 of the Revised Sailing Directions for the Pacific Islands (to be issued in three volumes instead of two volumes as at present) being now ready, are issued at once, without waiting for Volume 2, which will not be ready before the end of 1900.

The new Volume 1 (1900) cancels the whole of the old Volume 1 (1890), excepting chapter v, from pages 286 to 356. It also cancels pages 191 to 204 of China Sea Directory, Volume 4 (1894), and Supplement, 1894, relating to Pacific islands, vol. 1, part 1.

The old Volume 1 (1890) and Volume 1, part 2 (1893), will therefore have to be retained for reference until Volume 2 is published, as also Hydrographic Notices, Nos. 1 of 1894; 1 of 1895; 7 of 1895; and 7 of 1897.

The new Volume 3 cancels that part of Volume 2 from page 273 to the end.

When the new 2nd volume is published, all the old directions, including Volume 1, part 2, and the Hydrographic Notices named above, will be cancelled. (*Notice No. 647 of 1900.*)

[First Publication.]

PACIFIC OCEAN—PACIFIC ISLAND, MEIACO SIMA.

Non-existence of Ykima island.

THE following Notice to Mariners (No. 649 of 1900) issued by the British Admiralty is republished:—

Information has been published by the United States Government, dated 4th August 1900, that Commander Seaton Schroeder, of the U.S.S. *Yosemite*, reports having sounded in 290 fathoms without obtaining bottom in lat. 24° 25′ N., long. 125° 29′ E., or on the position where an island named Ykima is shown on the Charts to the southward of the Meiaco Sima group.

The day was clear with a perfect condition of visibility, but no island could be seen.

Ykima island appears to have been placed originally on a Chart of the China Sea published by the East India Company's Hydrographer (Horsburgh) in 1835. No mention was made of its existence in any of the earlier editions of Horsburgh directory, nor is any account of it given in any edition of that directory.

In 1843 Sir E. Belcher, in H.M.S. *Samarang*, looked for this island, but failed to find it.

In 1856 the U.S. expedition under Commodore Perry also looked for Ykima without effect.

In 1870 Captain G. H. Schoof, of the German barque *Uranus*, passed over its position without seeing any such island.

No such island is shown on the plan of Meiaco Sima islands by Captain Broughton of H.M S. *Providence*, 1795.

As no authority can be found for placing Ykima island on the Chart in the position given above, and as no report of its existence can be traced, it is considered probable that this island must be identical with Ikema island shown on the Chart in lat. 24° 56′ N., long. 125° 16½′ E., at the north end of Taipinsan island.

Ykima island, in lat. 24° 25′ N., long. 125° 29′ E., has been consequently erased from the Admiralty Charts. (*Notice No. 649 of 1900.*)

This Notice affects the following Admiralty Charts:—Pacific, No. 781; China sea, No. 1263; Hong Kong to Liau-tung gulf, No. 1262; Amoy to Nagasaki, No. 2412; Meiaco Sima group, No. 2105: Also, China Sea Directory, vol. IV, page 214.

sanctioned by Government. The operation of the Act was withdrawn from the town of Gewankhali during the latter part of the year.

2. *Licensed lodging-houses.*—The total number of lodging-houses increased from 1,678 in 1898-99 to 2,687. The increase is most marked in Puri, where the number of licenses rose to 1,295 from 327 in the previous year. This large increase is said to be due to the great influx of pilgrims in that town during the late car festival. The number of lodging-houses, however, fell from 215 to 167 in the towns of Garhbeta, Dantun, Gewankhali, Midnapore, and Ulubaria. The decrease was chiefly due to the discontinuance of the steamer service to Puri *viâ* Gewankhali, after the opening of the Bengal-Nagpur Railway.

The number of lodgers accommodated during the year rose from 54,210 to 60,061. The increase was shared by all the places in the Orissa Division, where the Act is in force, except Chandbali, and was most marked in Puri, where a larger number of pilgrims than usual required accommodation came during the car festival.

Income.—The total income of the year was Rs. 61,935 against Rs. 38,471, the opening balance being Rs. 25,022 and the closing balance Rs. 43,771. There was a general increase of income under all the heads, and, except Chandbali, all the places in the Orissa Division and Gaya contributed to the increase. The decline in Chandbali is said to be due to the opening of the Bengal-Nagpur Railway. There was also a large decrease in the income during the year at Sitakund, where it fell from Rs. 3,138 in the previous year to Rs. 642. This decrease was due to the fall in the number of lodgers, as the year was considered inauspicious by Hindus for visiting the shrine at that place.

Expenditure.—The total expenditure was Rs. 43,186 against Rs. 37,247 in 1898-99. The increase occurred chiefly under the heads "Dispensaries and other medical expenditure," "Contingencies," and "Contribution to other funds" and "Miscellaneous." There was a decrease of expenditure under the heads "Conservancy," "Construction," and "Repairs." The closing balances are considerable at Sitakund, Gaya, Cuttack, Balasore, and Puri, and more money might have been spent over useful sanitary improvements at these places.

Prosecutions.—The number of persons prosecuted for receiving pilgrims without a license, for taking in more than the licensed number, and for other offences against the Act and bye-laws was 582 against 228 in the previous year, and the number convicted 507 against 211. The amount of fines realised rose from Rs. 1,818 to Rs. 5,858.

Public health.—The health of the places where the Act was in force is reported to have been generally good. Great mortality, however, occurred from cholera among the pilgrims at Puri during the *Rath Jatra.* One thousand and seventy deaths from cholera are reported from the various places, of which 1,027 took place in Puri and the chatties on the Jagannath Road, lying in the districts of the Orissa Division. The following statement shows the statistics of disease and mortality among the pilgrims during the year:—

Disease.	Number of persons admitted into hospital, including those remaining from the previous year.			Total.	Number of deaths in the lodging-houses.	Total number of deaths, columns 3 and 6.
	Cured.	Died.	Remaining on 31st March 1900.

Other diseases ...	592	65	15	672	5	70
Total ...	2,215	1,121	29	3,365	199	1,320

The above figures state only the mortality in places directly under the Lodging-house Act. The total number of cases of cholera in the Orissa Division during the *Rath Jatra* was 4,629, of which 3,757 ended fatally. The means of guarding against the recurrence of similar epidemics in future are under the consideration of Government. The conditions of pilgrimage to Orissa have been entirely altered by the recent extension of the East Coast Railway, and the question of dealing with the new conditions is one of considerable difficulty.

Water-supply.—In Puri eight ring wells are said to have been sunk in the lodging-houses, and 244 wells of different descriptions were thoroughly cleansed and disinfected. Two important tanks are also reported to have been cleaned out during the year. In Garhbeta, in the district of Midnapore, the water-supply is not considered to be sufficient, and the construction of a new well has been sanctioned to meet the wants of the locality. At Ulubaria, too, there is only one tank which affords good drinking-water to the public, and another such tank is badly wanted there. Nothing was spent during the year to remove this want. It is reported that since the close of the year the excavation of one tank has been commenced, but that the progress of the work is being greatly retarded by party dissensions in the town. Factions in such a matter are an absurdity, and it rests with the local officers to see that any such obstacles are promptly removed.

Local works.—A circular was issued towards the close of the year requiring the Lodging-house Committees, like other local bodies, to append to the annual reports, a brief summary of local works undertaken by them. The most important of these was in Gaya, where four masonry drains are reported to have been constructed at a total cost of Rs. 3,359.

On the whole, the Act appears to have been worked satisfactorily during the year in all the places where it was in force. Now that through railway communication has been established by the Bengal-Nagpur Railway Company, it is considered that the chatties along the Jagannath Road will be very little used by the pilgrims, and, in view of this fact, the Magistrate of Cuttack suggests the abolition of these roadside chatties and the provision in their places of public dharmasalas built on sanitary principles. He also suggests that there should be one joint fund for the three districts of Cuttack, Puri, and Balasore. The question is one of importance, and should be submitted separately to Government.

ORDER.—Ordered that a copy of this Resolution be submitted to the Government of India, in the Home Department, and that copies of it be forwarded to the Commissioners of the Burdwan, Presidency, Chittagong, Patna, Bhagalpur, and Orissa Divisions, for information.

Ordered also, that a copy of the Resolution be communicated to the Sanitary Commissioner, Bengal, and to the Sanitary Board, and that it be published in the *Calcutta Gazette* for general information.

By order of the Lieutenant-Governor of Bengal,

E. N. BAKER,

Secretary to the Government of Bengal.

RESOLUTION ON THE REPORT ON PLAGUE IN CALCUTTA FROM ITS FIRST APPEARANCE TO 30TH JUNE 1900.

MUNICIPAL DEPARTMENT—MEDICAL.

Dated Darjeeling, the 3rd November 1900.

RESOLUTION—No. 2589 $\frac{\text{Medl.}}{\text{P.}}$.

READ—

Report on Plague in Calcutta from its first appearance to 30th June 1900.

In order that the experience of plague which has been gained in Calcutta during the last three years might be summarised and presented in a convenient form, the Chairman of the Corporation was in June 1900 requested by Government to submit a report tracing the history and progress of the disease from its commencement. This report has now been received. It deals with the progress of plague from the first outbreak to 30th June 1900, and includes the reports which have from time to time been drawn up by the Medical Officers appointed for the purpose of dealing with the disease.

2. *History of plague in Calcutta.*—The history of the disease in its various stages is as follows.

In September 1896, almost coincidently with the outbreak of the disease in Bombay, a certain number of cases occurred in Calcutta which were regarded as suspicious. These, however, after considerable discussion, were declared by the Medical Board appointed by Government not to be cases of genuine plague; and the definite recognition of the disease was postponed for another year and-a-half.

The first known case of plague in Calcutta was discovered in April 1898, and at the end of that month the city was declared infected. It continued so until October of the same year, when cases ceased to be reported, and the city was accordingly declared free from plague. During these six months the attacks and deaths reported were 230 and 192, respectively. The outbreak therefore cannot be said to have been epidemic as that word is commonly understood.

During the next four months the disease remained quiescent. Some few isolated cases were reported which bacteriological examination showed to be plague, and there were a considerable number of cases in which, the cause of death not being sufficiently apparent, it was considered advisable to disinfect the houses in which they had occurred. The mortality during the whole of this period was above the average, and in the opinion of the Health Officer the greater part of the excess was in fact due to plague.

It was not, however, till the end of February 1899 that the existence of plague was sufficiently demonstrated to warrant a declaration that Calcutta was again infected. This outbreak lasted until the end of June 1899, and during these four months 1,336 cases and 1,223 deaths from plague were reported. It is, however, the decided opinion of both the Medical Officers who deal with this period that the above figures by no means represent the actual mortality for which plague was responsible; and in this opinion the Chairman concurs. What the true plague mortality was can only be conjectured. There appears to have been extensive concealment of cases, and the estimates of the authorities vary, the largest being slightly over 3,000. The highest mortality was reached in March and April. From April onwards it fell rapidly, and in June the total mortality was again normal.

In July the number of cases of plague was small, but for the remainder of the year it was in each month considerable. During the second half of 1899, 1,131 cases were returned as plague, and 898 as "suspicious"—a form of entry dating from this period. The limit therefore to the "epidemic" period of 1899 which is fixed in the reports at the middle of the year, appears to be a somewhat artificial one.

In 1900 the disease assumed very different proportions, and became f the first time violently epidemic. From January to the end of June 7,897 ca and 7,373 deaths from plague were reported. Of these, 3,667 cases, or near half of the total, occurred in the month of March, and 1,996 in April, aft which the virulence of the epidemic abated rapidly. During this period cas were freely reported, and the Chairman shows by an interesting set of figur that information was obtained of practically all the deaths due to plague.

The total mortality due to plague in Calcutta from its first outbre down to 30th June 1900, a period of 2 years and 3 months, has been, accordi to the official returns, 10,887. If in accordance with the opinion of t Chairman and the Medical authorities, suspicious cases and excess mortality n otherwise accounted for are put down to plague, the total may be fixed 13,000 in round numbers.

3. *Local distribution.*—The following table shows the localities in whi the disease has been most prevalent in each period since its first outbrea The wards are arranged in order of mortality from the disease :—

	Wards				
1898	VIII	XIII	X	VII	V
1899 { January to June ...	III	V	VI	I	XXII
1899 { July to December ...	XXII	VI	III	V	IX
1900 (January to June) ...	V	VIII	VII	II	VI

The striking feature of the above table is the continued prominence Ward No. V, Jorabagan, and this is still more noticeable when the figures f the latest period, which account for more than all the other periods together, a examined. This is not accounted for by the population of the ward, whic though large, is not greater than that of Ward No. IX, and is less than that Wards Nos. VI, VIII and XXII. During that period no less than 1,555 cas occurred in Ward No. V, or more than the total of any other two war together.

The local characteristics of this ward merit accordingly a brief descr tion; and a sufficiently striking one is supplied by the report of the He'a Officer of Calcutta for 1896. Writing of the southern portion of the w'a Dr. Simpson said :—

"Every one I have taken over the area . . . . is unanimous in condemning it as un for human habitation and a source of danger to the town . . . . The narrow, ill-ventilat streets; the passages to which neither light nor fresh air have access; the filthy condition both; the close proximity of the hous s to one another, and their overcrowded state, combi to form conditions which render proper sanitation impossible. It is a standing menace to t rest of the city; and should plague once obtain a firm footing in this quarter, which is t worst I am acquainted with in any city I have seen, there is every likelihood of the disea becoming endemic."

This description is endorsed by the present Health Officer and by Chairman, who, in concluding his history of the epidemics by commentin the state of this area, remarks that "at the present time signs are not war that there may be an epidemic of greater intensity yet to come."

4. *Precautionary measures*—The history of the measures adopted t with plague in Calcutta is brief and simple.

When plague attacked Calcutta in 1898, certain measures had formulated by expert authority and prescribed for general adoption thro India by the Supreme Government. Their leading features were car enforced death registration, house-to-house visitation, segregation o sick and of contacts, the evacuation of infected localities, disinfection, and enforcement of general sanitary precautions.

In Calcutta the provisions regarding segregation and evacuation were once modified by offering inoculation as an alternative, and by permitt isolation in private houses of the better class.

In spite of this, however, the first appearance of plague was signalised an unprecedented panic and exodus from the town, and by several re regrettable disturbances. Fortunately the outbreak was but a slight one, a meanwhile it served the purpose of indicating how far the general policy then prescribed was practicable in Calcutta and how far not. When plag

reappeared in the succeeding year, the policy of Government was stated in a Resolution of which the following is an extract:—

"In order that effective measures may be taken to prevent the spread of infection, it is of the first importance that every case which occurs shall be promptly brought to the notice of the authorities. Foreign Governments would have just cause for complaint if the regulations in force were so repugnant to the sense of the people affected as to drive them to withhold information and hide away their sick instead of bringing them forward for treatment."

Compulsory removal to hospital and segregation were accordingly abolished, and have since remained so. The policy which has been followed from that time to the present, and which has been recently reaffirmed by the Indian Plague Commission and the Government of India, is that of making every effort to obtain information of cases, and of inducing the people to accept the measures which experience has indicated to be of most avail in preventing the spread of the disease. Of these the principal, in fact practically the only one generally used in Calcutta, has been disinfection.

5. *Information of plague cases.*—The Chairman examines in detail the steps which have been taken to obtain information of cases, and the measure of success which has attended them. Such measures as house-to-house visitation and the offer of rewards for information of cases have never been even suggested in Calcutta; nor have penalties for not volunteering information been enforced, except in occasional instances. Volunteer agencies have in many instances done most valuable work, but the task of reporting cases is not one with which they have been able to cope, except to a limited extent. The work of ascertaining cases has therefore devolved almost entirely upon the officers of the Plague Department. Their enquiries are prosecuted as follows.

At the central registration office an abstract is made daily of the deaths in each of the districts into which for plague administrative purposes Calcutta is divided, and the list is sent to the District Medical Officer. He scrutinises this list with reference to the details of each case given in it and the character of the locality from which it is reported; and an investigation is ordered into all cases which it is thought probable may be cases of plague. Enquiries are then conducted on the spot, in a manner of which a full and interesting description is given in Major Deane's report. When such information as can be extracted has been collected, the District Medical Officer enters the case either as "plague," "suspicious," or "not suspicious" according to the evidence; and it is dealt with or left alone accordingly. Major Deane mentions that the people themselves give no information of sickness during life, and that living cases are found chiefly through the dead, that is, in the course of the enquiries described above.

The absence of mention of living cases seen by officers of the Department a noticeable feature of the reports for 1898 and 1899. From January to ne 1899, out of a total of 2,029 plague or suspicious cases, only 26 were seen ve. In the first six months of 1900, on the other hand, 1,409 living cases e seen out of 7,897 reported.

From the beginning of June, however, a new feature of some significance appeared in the weekly returns. This is the close approximation of the ber of cases with the number of deaths. In the 20 weekly returns from June to the 13th October, the numbers have been identical in 9, and in e of the remainder have the figures differed by more than 4. The total mbers were 1,895 and 1,879, respectively. If these figures were correct, ey would denote that virtually evey case of plague terminates fatally. This of course, not the truth. Roughly speaking, the proportion of plague ttacks which end in death is 80 per cent. If, then, it may be assumed that all eaths due to plague have been traced, these figures would indicate that during he period in question some 470 cases ending in recovery escaped discovery. Meanwhile, the total motality from all causes has been largely in excess of the normal. The average number of deaths from all causes from 1st June to 13th October is 7,213, whereas the actuals have been 10,207, showing an excess of 2,994, or more than 40 per cent. When all due allowance has been made for he known prevalence of malarial fever and for deaths due indirectly to the

floods of September, these figures are disquieting, and suggest that a certain number of deaths really due to plague have escaped record as such. On the other hand, it is known that the procedure for investigation has not changed; and if this was successful earlier in the year as is well established), it is not clear why it should have failed in the later months. If there has been failure, it is of significance; for the sheet-anchor of the plague policy observed in Calcutta is disinfection of every room or tenement in which, or in the vicinity of which, a case has occurred, whether ending fatally or not; and if non-fatal cases are not discovered, the work of disinfection must be incomplete.

This emphasizes the importance of the more widely extended process of disinfecting, which is referred to below as "extra disinfection." In the meantime the Lieutenant-Governor desires that the Chairman and the Special Health Officer will submit the special reports which were called for some weeks ago, and lay before Government the measures they propose to adopt in order to ensure the prompt discovery of all attacks of the disease, whether fatal or not.

6. *Disinfection.*—Of the recognised preventives against plague, disinfection has been practically the only one on which reliance has been placed in Calcutta.

The procedure throughout has been to disinfect every room in which either a case of ascertained plague or a case suspected to be plague has occurred. Thus, between January and June 1899, only 1,336 cases of ascertained plague were reported, but 4,750 premises were disinfected. And since February 1900 this policy has been extended to the disinfection of whole bustees or streets in any part of which a case of plague had occurred. During the period with which the present report deals, the demands upon the time of the Medical Officers and disinfecting Inspectors were too great to allow of much being done in this matter; but since the subsidence of the epidemic at the close of this period great efforts have been made to extend it as much as possible, in the hope of exterminating the plague bacillus during the dormant period from its chosen habitations. In 1900, up to the 8th September, 42,314 rooms have been subjected to this "extra disinfection."

In carrying out these measures, the Chairman rightly observes that the value of the influence of men of local standing is enormous. He quotes three instances in which local opposition was readily overcome by invoking the aid of the land-owners, Raja Binoy Krishna Bahadur, Maharaja Bahadur Sir Narendra Krishna, and Babu Sarat Chandra Mukerji, respectively. The cordial thanks of Government are due to these gentlemen for their enlightened and public-spirited co-operation, and the Lieutenant-Governor hopes that the example they have set may be taken to heart by all gentlemen of position in Calcutta, to whom a like opportunity may be offered.

How far disinfection is efficacious in preventing the spread of plague is a question upon which judgment must for the present be deferred The experience of the approaching cold weather, following upon these extensive disinfection operations, may be expected to supply meterials for more conclusive inferences than can at present be drawn.

Major Deane, who has made disinfection his especial study, discusses in a careful and impartial manner the actual results hitherto obtained from it; and, while frankly admitting the difficulty of eliminating from calculation the influence of unknown and complicating factors, comes to the important conclusion that a room in which plague cases have been lying for several days may be occupied with perfect safety after disinfection as soon even as the operators have left the scene. This conclusion is arrived at after observations of a large number of cases, of which several are described in detail in Major Deane's report, and two typical instances of which deserve notice. They are as follows:—

In Kali Bazar 10 cases of plague occurred between 2nd February and 20th March 1900. It was decided to attempt to check the further progress of the disease by disinfection on a large scale, and the inhabitants were persuaded, with considerable difficulty, to consent to this Thirty large godowns were accordingly emptied of their contents, and, with the verandahs attached to them, were entirely disinfected, the operations lasting six days.

No more cases occurred in that part of the bazar.

Again, in May 1900, plague broke out in a large bustee, composed of four blocks of houses, which had been infected in the previous year. Several deaths

occurred, and in each case the rooms in which they had taken place were disinfected, disinfection being extended by degrees to the whole of each block in which the infected houses were situated. The disease, however, continued to spread from one block to another, eleven cases occurring in three weeks. At the end of this period, the entire bustee, except one house, was disinfected; and since that date no more cases have occurred in it.

Major Deane's conclusion is that the first seven cases (two of which occurred in disinfected rooms) are accounted for by a common source of infection; that the infection was being slowly disseminated, and that it was ultimately suppressed by the completion of the disinfecting operations.

Other instances are cited to the same effect. In spite of the recurrence of a certain number of cases in houses already disinfected, which may be ascribed either to incomplete disinfection or to the second patient having already contracted the disease at the time of the disinfecting operations, the result is a decided, if not conclusive, preponderance of evidence that disinfection, when carried out on as large a scale as possible, is a useful and efficacious preventive agency.

In the opinion of the Lieutenant-Governor this conclusion had been indicated by facts observed at the opening of the current year; and he has watched with great interest its subsequent progress towards confirmation. Disinfection is the only preventive measure which it is practicable to work on a large scale in Calcutta. The results obtained from it so far have been promising, and give at least some grounds for the hope that if another attack cannot be avoided, it may be materially mitigated.

7. *Characteristics of Plague in Calcutta.*—To the nature of the disease itself and the methods by which it is spread Major Deane devotes a discussion which is doubtless of interest and value to experts. By the general reader its leading feature will probably be considered to be the absence of definite conclusions. The characteristics selected by Major Deane for special remark are the very low contagious and infectious properties which the disease has displayed; and in perusing the reports the reader cannot fail to be struck by the remarkable contrast which both the mortality figures of the present visitation and the descriptive passages supplementing them present to the records of the various epidemics which depopulated in earlier times the regions they visited.

8. *Attitude of the people.*—The attitude of the people towards the disease and towards the measures adopted to deal with it is now well known. It has throughout been the principal factor which has had to be considered in dealing with the disease. Where the incidence of plague has been really severe, the people have readily given information to the plague authorities and have sought their aid. They have also to some extent, following the prescription of Defoe, taken refuge from it in flight. But when once the virulence of an epidemic has abated and the fear of death is no longer before their eyes, their attitude has throughout been one, if not of actual hostility, at least of entire indifference to precautionary measures and unwillingness to undergo the slightest present inconvenience in order to guard againt future calamity. It is this attitude which has been the perpetual obstacle in dealing with plague in Calcutta. Of this the Government cannot complain. It is human nature that precaution and help should lessen as anxieties abate. The plague officers must calmly and patiently persevere, at least they are no longer opposed. That the original animosity and suspicion of the people have been so remarkably changed, is due to the unsparing energy and unfailing tact of the officers to whom the administration of plague in Calcutta has been entrusted.

9. Among these officers the thanks of Government are, in the first place, due to Mr. Greer and Mr. Bright, successively Chairmen of the Corporation. Mr. Greer held that office when plague first appeared in 1898, and on him fell the heavy and anxious task of organising the original measures for dealing with it. His success in securing public confidence and support, and in speedily allaying the first unreasoning panic, have deserved the warm encomiums of Government. From November 1898 Mr. W. R. Bright was in charge of plague measures for almost the whole period during which they have been in force. They have imposed upon him, in addition to duties already

sufficiently onerous, a burden heavy enough in itself to test to the utmost the energies and capabilities of the most experienced administrator. They have throughout been carried out by him with sound judgment and with untiring industry. The strain thus entailed upon him has recently resulted in the breakdown of his health, and his consequent resignation of the post of Chairman; and his loss will be severely felt in plague administration both by Government and by the community with which he has had to deal.

The medical supervision of plague measures has, during the greater and the most trying part of the period under notice, rested with Major Deane, R.A.M.C. The Chairman pays a well-deserved tribute to the admirable way in which he has managed his department, and the Lieutenant-Governor has much pleasure in heartily endorsing the Chairman's opinion. Dr Neild Cook and Major Green, I.M.S., dealt successfully with plague administration at a time when the disease, though less severe in its incidence, was, owing to its novelty, more alarming and more difficult to deal with than in its later stages. The District Medical Officers, Drs. Pettifer, Hossack, Justice, Pearse, and Crake, have done admirable work throughout; and the gratifying fact that the subordinate staff are said to have worked excellently is doubtless to be attributed in great part to the supervision of these officers.

Much assistance has been rendered by private gentlemen. In 1899 the Ward Committees of Wards 2, 5, 6, 7 and 22 are reported to have been specially useful. Similar Committees are now being reconstituted on a new basis, and it is hoped that they will be of great assistance in future.

Of individuals, Mr Abdur Rahman, Khan Bahadur, Rai Harayram Goenka Bahadur, Rai Kailash Chunder Bose Bahadur, C.I.E., Babu Jada Nath Set, Dr. M. N. Banerji, Babu Lal Bihari Baisakh, Mr. J. C. Dutt, Pandit Keshab Prosad Misser, the Rev. J. Ashton and Dr. Hari Das Haldar are specially mentioned as having given general assistance to the authorities. Mr. John Laird, Manager of the Union Jute Mills, did valuable work in securing the disinfection of the quarters occupied by his employés, and has already received the special thanks of Government.

In connection with the work of extra disinfection the following gentlemen are mentioned by the Plague Department as having rendered special assistance:—

Babu Mannu Misser.
„ Ram Lal Mitter.
Raja Benoy Krishna Deb Bahadur
Kumar Sailendra Kristo Deb.
Babu Troylokha Nath Ghose.
Kumar Anath Kristo Deb.
Babu Baroda Kanta Mitra.
Maharaja Monindra Krishna Nandi.
Dr K N Singh.
Babu Shashi Bhusan Sen.
„ Akhil Chandra Bose
„ Kumod Krishna Mitter.
„ Anukul Chander Dhur.
„ Manu Lal Sarap.
Pandit Keshub Chunder Misser.
Babu Chuni Lal.
Maulvi Badruddin Haider, Khan Bahadur.
Babu S. C. Mukherji.

To each and all of these gentlemen the Lieutenant-Governor desires to express his appreciation of the services which they have rendered to their fellow citizens and to Government. The example of enlightened public spirit which has been set by them cannot but be of the greatest value in securing for the measures prescribed by Government that general co-operation of the people themselves by the aid of which alone can the speedy eradication of plague from Calcutta be hoped for.

By order of the Lieutenant-Governor of Bengal,

E. N. BAKER,

Secretary to the Govt. of Bengal.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

GENERAL DEPARTMENT—(EDUCATION.)

NOTIFICATION—No. 2992.

The 13th November 1900.—The following rules for the working of Text-Book Committees in Bengal are published with the sanction of the Government of India for general information.

F. A. SLACKE,
Secy. to the Govt. of Bengal.

CONSTITUTION OF THE TEXT-BOOK COMMITTEE.

1. There shall be a Text-Book Committee in Calcutta and a Sub-Committee in Bankipore and in Cuttack. The Central Text-Book Committee shall meet in Calcutta. The Sub-Committees in Bankipore and in Cuttack shall be styled the Bihar and the Orissa Text-Book Committees, respectively, and shall meet in Bankipore and Cuttack. These Committees shall meet on such dates as may be determined on by the respective Presidents.

2. The Central Text-Book Committee shall consist of 20 members, exclusive of the Director of Public Instruction, who shall be *ex-officio* President. The Inspector of Schools, Presidency Circle, shall be *ex-officio* Secretary of the Central Committee, if qualified to be a member. The Bihar and the Orissa Text-Book Committees shall have eight and five members each respectively in addition to the Inspectors of Schools of the Patna and Orissa Circles, who shall be the *ex-officio* Presidents, and the Assistant Inspector of Schools, Patna Division, and the Deputy Inspector of Schools, Cuttack, shall likewise usually be Secretaries of the Bihar and Orissa Committees, respectively. The Central Text-book Committee shall consider books written in English, Bengali and in other languages suitable for use in High, Middle, and Primary Schools for native scholars; while the Sub-Committees in Patna and Cuttack will consider books for similar use written in the vernaculars of Bihar and Chota Nagpur and Orissa, respectively.

3. The proportion of official to non-official members of the Committee shall be as 2 to 1. Some of the official members should be persons outside the Education Department.

4. All members of the Text-Book Committees shall be appointed by Government on the nomination of the Director of Public Instruction.

5. Each member shall be appointed for two years, but Government shall have the power to re-appoint any member for further similar periods of two years on the recommendation of the Director of Public Instruction, and to cancel at any time the appointment of any member whom it may consider to have been guilty of improper conduct. A member absenting himself from four consecutive meetings of the Committee, or leaving India for more than three months, shall be considered to have vacated his membership, and a new member shall be appointed in his place in the way referred to in Rule 4.

II.—Relation of the Text-Book Committees to the Education Department and the Local Government.

6. The functions of the Committees are strictly limited to advising the Local Government with regard to those books that are forwarded to them by the Director of Public Instruction. With the Local Government rests the ultimate decision as to the text-books which are to be prescribed or approved for schools in Bengal.

7. The Committee will have no concern with the text-books of schools under the Code of Regulations for European schools unless they are specially referred to the Committee for opinion by the Government or by the Director of Public Instruction.

8. The Government has the right of prescribing a text-book on a particular subject, in exceptional circumstances, for use in all schools, whether Government or aided, situated in territories under its jurisdiction.

III.—Selection of Text-Books by the Committees.

9. The Committees shall frame their own rules for the conduct of business.

10. From such books as are submitted to them by the Director of Public Instruction, they shall prepare lists of text-books recommended by them as suitable for use in schools. They may also approve of books as being suitable for prizes and for school libraries.

11. All lists of authorised text-books will be published in the official Gazette annually in January of each year under the authority of the Local Government.

12. Books which have been approved of as text-books shall be considered as suitable for prize books, but it shall also be permissible for the Committees to select any book as suitable for a prize or library book, but not suitable as a text-book for schools.

13. If it is thought desirable, the lists may be circulated by the Director of Public Instruction to any officers or local bodies engaged in education, in order to be sure that there are no avoidable omissions or any ground for criticism.

14. If it be represented from any trustworthy quarter that a book in common or accepted use, or a new or little-known book has found no place in the list, or that a book approved by the Committee is unsuited for use in schools, the Director of Public Instruction shall represent the matter to the Committee concerned, and after ascertaining the views of the

members, it shall be within his competency to decide finally whether the book should be included in, or excluded from, the list. Should a question of principle be involved, the Director of Public Instruction should represent the conflicting views to Government for ultimate decision.

15. The President of each Committee shall decide for what particular grade of school and for which classes in schools the various approved text-books may be suitable.

16. For each class of schools maintained by the Government, the course of instruction will be laid down and the actual text-books for each particular course will be absolutely prescribed by the Department, the selection being made from the list published by Government.

17. In the case of aided schools lists of approved text-books will be prepared for use in the respective classes of the different grades of schools, and managers of such schools will be allowed to select and use only books indicated in such lists.

IV.—General Procedure in Examination of Books.

18. The publisher or the author of a book which is intended to be used as a text-book in schools should, in the first instance, submit to the Director of Public Instruction three copies of the book with a printed application which should be numbered and dated.

19. The book will be subjected to a preliminary examination under the orders of the Director of Public Instruction, and if it is found to be a work upon which the opinion of the Committee ought to be taken, the Director of Public Instruction will ask for as many copies of it as may be required for examination by the Committee.

20. The Director of Public Instruction is not bound to say why a book is not considered to be fit for examination by the Committee, and by whom the preliminary examination was conducted.

21. Books presented for examination by the Text-Book Committees should not be charged for.

V.—Duties of Schools towards the Text-Book Committee and towards the Government and the Education Department.

22. No book not authorised by the Government shall be used in any school which receives support from public revenues. Also no aid shall be given to any school from public money unless the managers agree not to use any text-book which is not included in the list of text-books authorised by the Government or without the previous sanction of the Government.

23. When such sanction is asked for, every facility will be given by the Government to have the book examined by the Director of Public Instruction, and, if he considers it desirable, it will be referred to the Text-Book Committee with a view to its examination and possible inclusion under the orders of Government in the authorised list, if it should be found to be a suitable work.

24. Candidates from an unaided school are liable to be excluded from any public examination, for passing which a certificate is given, or from competition for a Government scholarship, if text-books which are disapproved by Government are in use at the school in question

25. All schools sending up candidates to public examination, for passing which certificates are issued, and all schools sending up candidates competing for any Government scholarships, are required to send, in the month of January in each year, a list of all the text-books used in each class of the school to the Inspector of Schools of the Division in which the school is situated. Should there be any book in use which is disapproved by Government, the Inspector shall at once bring it to the notice of the Director of Public Instruction for such action as he may deem necessary.

ORISSA CIRCLE.

OFFICE MEMORANDUM OF THE INSPECTOR OF SCHOOLS, ORISSA CIRCLE.

Rules for appearing at the F.A. and B.A. Examinations in 1901 for candidates from the Orissa Circle who are not students of any affiliated institution.

DEPUTY INSPECTORS OF SCHOOLS, Sub-Inspectors of Schools and *bonâ fide* teachers of recognised English schools who have served as such for the full period of two academical years or for a term of six months after an examination of the same class last held by the University in the case of those only who were admitted to a former examination of that class will be admitted to the abovementioned examinations. All applications from school masters should be accompanied by certificates of length of service from the Secretaries of the schools in which they are employed, and should reach this office not later than the 5th January 1901. The application of a school master for permission to appear at the F.A. or B.A. Examination should be signed by him in the presence of the Secretary or a member of the Managing Committee of the school in which he is employed. The application should be forwarded to the office of the Inspector of Schools, Orissa Circle, for countersignature, together with the Registrar's receipt to prove, if this be the case, that the candidate has appeared at the examination in a previous year, and the certificate in proof of his having passed the Entrance or F.A. Examination, as the case may be. Such papers will be sent back to him (the candidate), who will have to send them, together with the examination fee, to the Registrar of the University direct.

2. Candidates should read carefully the form of the certificate which the Inspector of the Circle will sign, and should be careful to supply all information and documents required, including the Registrar's receipt, in the case of those who have been admitted to a former examination of the same class, without which the Inspector must decline to sign the certificate applied for.

3. By *bonâ fide* teachers of schools are to be understood teachers who hold regularly paid appointments in English schools teaching at least the Middle English course.

PACIFIC OCEAN.

Sailing directions for the Pacific islands.

THE following Notice to Mariners (No. 647 of 1900) issued by the British Admiralty is republished:—

Volumes 1 and 3 of the Revised Sailing Directions for the Pacific Islands (to be issued in three volumes instead of two volumes as at present) being now ready, are issued at once, without waiting for Volume 2, which will not be ready before the end of 1900.

The new Volume 1 (1900) cancels the whole of the old Volume 1 (1890), excepting chapter v, from pages 286 to 356. It also cancels pages 191 to 204 of China Sea Directory, Volume 4 (1894), and Supplement, 1894, relating to Pacific islands, vol. 1, part 1.

The old Volume 1 (1890) and Volume 1, part 2 (1893), will therefore have to be retained for reference until Volume 2 is published, as also Hydrographic Notices, Nos. 1 of 1894; 1 of 1895; 7 of 1895; and 7 of 1897.

The new Volume 3 cancels that part of Volume 2 from page 273 to the end.

When the new 2nd volume is published, all the old directions, including Volume 1, part 2, and the Hydrographic Notices named above, will be cancelled. (*Notice No. 647 of 1900.*)

PACIFIC OCEAN—PACIFIC ISLAND, MEIACO SIMA.

Non-existence of Ykima island.

THE following Notice to Mariners (No. 649 of 1900) issued by the British Admiralty is republished:—

Information has been published by the United States Government, dated 4th August 1900, that Commander Seaton Schroeder, of the U.S.S. *Yosemite*, reports having sounded in 290 fathoms without obtaining bottom in lat. 24° 25′ N., long. 125° 29′ E., or on the position where an island named Ykima is shown on the Charts to the southward of the Meiaco Sima group.

The day was clear with a perfect condition of visibility, but no island could be seen.

Ykima island appears to have been placed originally on a Chart of the China Sea, published by the East India Company's Hydrographer (Horsburgh) in 1835. No mention was made of its existence in any of the earlier editions of Horsburgh directory, nor is any account of it given in any edition of that directory.

In 1843 Sir E. Belcher, in H.M.S. *Samarang*, looked for this island, but failed to find it

In 1856 the U.S. expedition under Commodore Perry also looked for Ykima without effect.

In 1870 Captain G. H. Schoof, of the German barque *Uranus*, passed over its position without seeing any such island.

No such island is shown on the plan of Meiaco Sima islands by Captain Broughton of H.M.S. *Providence*, 1795.

As no authority can be found for placing Ykima island on the Chart in the position given above, and as no report of its existence can be traced, it is considered probable that this island must be identical with Ikema island shown on the Chart in lat. 24° 56′ N., long. 125° 16½′ E., at the north end of Taipinsan island.

Ykima island, in lat. 24° 25′ N., long. 125° 29′ E., has been consequently erased from the Admiralty Charts. (*Notice No. 649 of 1900.*)

This Notice affects the following Admiralty Charts:—Pacific, No. 781; China sea, No. 1263; Hong Kong to Liau-tung gulf, No. 1262; Amoy to Nagasaki, No. 2412; Meiaco Sima group, No. 2105: Also, China Sea Directory, vol. IV, page 214.

WITH reference to Notice to Mariners No. 258, dated the 12th ultimo, issued by this office, the British Admiralty has given further notice (No. 659 of 1900) that Gatcombe head new light, Port Curtis, is now exhibited.

Gatcombe head. A new *fixed* light, elevated 122 feet above high water, and visible in clear weather from a distance of 13 miles, is now exhibited showing the following sectors:—*white* from the bearings of S. 29° W., through west, to N. 70° W.; obscured from N. 70° W. to N 45° W.; *white* from N. 45° W., through north, to N. 21° E.; *red* from N. 21° E. to N. 43° E.; *white* from N. 43° E. to the land.

It is shown from a cylindrical tower, 38 feet high, painted white with red dome, erected 150 yards N. 11° E. from the former light.

The former light is extinguished.

Approximate position, lat. 23° 53′ S., long. 151° 23′ E.

Leading lights are also exhibited from Gatcombe head and from near the entrance to the river Boyne, but their exact positions are not given. (*Notice No. 659 of 1900.*)

Admiralty Charts.

THE following Notice to Mariners issued by the British Admiralty (No. 643 of 1900) is republished for general information:—

In connection with arrangements at the Hydrographic Office, a second or "new" number is now being placed on all Admiralty Charts in the left-hand lower corner and in brackets, thus [1794].

These new numbers will approximately follow the consecutive order of the Charts as they stand in the Catalogue of Admiralty Charts, and may possibly in the future come into general use, but for the present no notice whatever should be taken of them by Navigating Officers of H. M. Ships, Sub-agents for Charts, or Mariners, and others using the Admiralty Charts, and the Charts should be quoted as heretofore by the number in the *right-hand lower corner* of every sheet.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF OCTOBER 1900.

THE chief features of the weather during October were—

(1) Cold season pressure conditions having appeared earlier than usual, the month was cooler and drier than in average years.

(2) Two disturbances occurred during the month. The first of these moved north-westward into the north-west angle of the Bay, and, after crossing Orissa, recurved and caused cloudy showery weather in the western districts between the 6th and 12th. While the central area was approaching and passing over Orissa, heavy rain fell in that area, and it is owing to these heavy falls that Orissa is the only division which received more than the normal amount during the month. The second depression entered the Bay from the east about the 20th and developed into one of considerable depth while crossing the Bay towards the Madras coast, which it crossed on the 24th. The influence of this disturbance was much less marked over the Province, but it caused fairly general rainfall in Orissa and Lower Bengal in the early part of the fourth week

The rain which then fell was most general in East Bengal, with the exception of Dacca and Mymensingh, which were almost entirely rainless.

(3) Owing to the continued absence of rainfall in the eastern districts and over a great part of Assam, judging by the rainfall at Sibsagar, Dhubri and Silchar, falls were much below the normal over a great part of that area. Silchar received one-eighth of the usual amount, Dhubri less than one-half, but at Sibsagar there was considerable excess. North Bengal received on an average 1·52 inches as compared with a normal of 4·28 and East Bengal 2·18 as compared with 5·45 inches.

At other times, that is with the exception of the two periods of disturbed weather referred to above, the pressure distribution was of the cold season type over the Province and in the north of the Bay, but towards the south it was lower than usual in the east of the Bay. In consequence of that arrangement westerly or north-westerly winds with little or no cloud and comparatively low temperature prevailed. This low temperature was more marked in the western districts, as in East and North Bengal and Assam day readings were considerably above the normal probably owing to the absence of cloud in the early part of the month. Mean night temperature was low over the whole Province, but by small amounts, except in Bihar and North Bengal, where there was defect of 2° to 3°.

At the beginning of the month pressure was rising in the west of the Province and falling in Bengal Proper and generally over the east of the Bay. The distribution of the previous few days had become more decided, with readings highest in the north-west and lowest over Burma, where there was a moderate defect. The gradient from north west to south-east was fairly steep as well as being unusual so early in the season, and northerly winds prevailed over the whole area. The mean difference from the normal varied from defect of 4° in the west of Bihar to excess of 3° at some of the eastern stations. The fall of pressure became more general on the 2nd, wind was increasing at Diamond Island, and the unsettled conditions had begun to move north-westward. During these early days showers were falling in the south of Bengal Proper, but they were generally light, the only fall of importance being 5 inches at Jessore on the 2nd.

On the two following days a widespread and apparently shallow depression was over the centre of the Bay with general cyclonic winds, which were of some strength in the south-east, but there was nothing to show that there was a well-defined cyclonic storm till it was close to the Orissa coast on the morning of the 6th. During the twenty-four hours preceding 8 A.M. of that date pressure fell nearly a quarter of an inch at Puri; and as there was a general rise, except in the area of disturbance, concentration was evidently proceeding. The greatest defect was ·3 inch, so that the depression was of the kind usual in the monsoon season.

In crossing Orissa the depression became diffused and partly filled up, and in the Central Provinces it recurved. On the morning of the 9th pressure fell slowly in the west of Bihar, the gradient became steeper in the western districts, and a shallow residual depression moved eastward across the north of the Province, ultimately disappearing on the 11th. During these days cloudy showery weather was more or less general over the whole Province, but with the rapid rise of pressure on the 11th the distribution became normal, and on the following day was similar to that preceding the commencement of the disturbance. Pressure became high in the west of the Province and low over the south of Burma with northerly or north-westerly winds. Temperature was above the normal, except in the west of Bihar; but as northerly winds again became established, the comparatively cool weather was more general.

For a week subsequent to the final disappearance of the above disturbance, fine calm weather prevailed over the whole area, and it continued practically unchanged in the north of the Province till the end of the month. The first signs of the second disturbance were very faint, and indicated the approach of a low pressure area from the east towards the

coast of Tenasserim. Pressure changes were very slight, and the changes of wind direction between the 19th and 21st were almost the only indications that a shallow depression had entered the south of the Bay. There was some increase of wind force at Diamond Island, the greatest average velocity being 14 miles an hour on the 20th. There were the usual signs of unsettled weather in the south of the Bay on the following days, and on the 23rd pressure fell rapidly on the Madras coast. The centre of the depression crossed the coast on the 24th a little to the north of Madras, moving in a direction almost due west.

The depression was of small extent, the large changes of pressure being confined to the Madras stations, but it caused strong winds and heavy rain as far north as Vizagapatam, and cloudy weather with light showers over a wide area, including Orissa, Lower Bengal and Arakan. The showers in Bengal continued till the 26th, after which fine weather became established over both the Province and the Bay and continued without interruption till the end of the month.

Pressure was usually above the normal in Bengal and Orissa, and the only occasion when any considerable variation occurred was when the depression was crossing Orissa during the second week. The low pressure then prevailing in the south-west and afterwards in the west of the Province was of short duration. In consequence of the continued high readings, mean pressure for the month is above the normal over the whole area by amounts diminishing from the north towards the south. Excess is ·05 inch in North Bengal and Bihar and about ·03 inch in the south of Orissa and the southern parts of East Bengal.

Temperature.—Owing to the northerly or north-westerly winds, temperature was low in the western districts; but as cloud was comparatively light in Assam and the adjacent parts of East and North Bengal, the days were warmer than usual at eastern stations. The difference from the normal maximum temperature for the month varies from defect of 3° in the west of South Bihar to excess of 3° in East Bengal and Assam. Mean minimum temperature was practically normal, except in Bihar and North Bengal, where there was defect of 2°. In North and East Bengal and Assam the average mean excess was about half a degree. In South-West Bengal and Orissa temperature was normal, and in Bihar and Chota Nagpur there was defect of 1°.

Rainfall was less frequent than usual in all parts of the Province, the number of rainy days being below the normal in the various divisions. There is also a considerable to large deficiency in the amount, except in Orissa, where heavy rain fell on the 6th and 7th while the depression was crossing that area. On an average for the division the rainfall was 6·8 inches as compared with a normal of 5·9. In Bihar, where the rainfall was general and fairly heavy between the 8th and 11th owing to the recurving of the depression, defect was only half an inch, and in Chota Nagpur it was rather more than one inch, but in Bengal Proper and the greater part of Assam there was a large deficiency. North Bengal received only 36 per cent. of the normal and Lower Bengal about 40 per cent.

Showers fell in parts of Bengal Proper and Orissa in the early days of October, and occasionally these were heavy, as at Jessore, on the 2nd. They were only local showers such as occur with the variable winds prevailing at the change of seasons. The other rainfall of the month was due to the disturbances, which have been referred to above; the first moved north-westward and caused almost the whole rainfall of the month. General rainfall began in the south of the Province on the 6th and extended to the northern districts a day or two later. It finally ceased about the 12th. The second disturbance towards the end of the month gave cloudy weather over the whole Province, but only light showers fell, and those in the southern districts.

The following table gives a comparison between the actual monthly and total rainfall and the normal rainfall of the province up to the end of October in the same form as has been employed in the previous monthly abstracts of the present year. The figures represent the ratio of the rainfall of each month of the present year to the normal rainfall expressed as a percentage. The table thus gives a condensed summary of the rainfall data of the year for each meteorological division. The first ten columns give the percentage amount of rainfall received in each month, and the last column the percentage rainfall of the whole period from the 1st of January to the end of October :—

The following table gives full data for the comparison of the actual and normal rainfall of the month of October in all districts of the Province. The first column gives the average district rainfall as determined from the rainfall observations of the past 26 years; the second column gives the actual district rainfall as determined from the actual weighted rainfall of the month at the reportng stations in the district; the third column expresses the ratio of the actual district rainfall to the normal as a percentage; and the fourth the same information in a slightly different form:—

The results of observations at the Alipore Observatory are not rigorously comparable with th registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher a Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temper ature is also greater at Alipore, and the mean temperature apparently about 0·8 lower; and, finally the thermometer, which furnished the record of temperature at the Surveyor-General's Office durin 20 years and upwards, is found to read 0·6 higher than the Kew Standard thermometer, whic is the standard of reference at the present Observatory.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

Δ, dew.

The 14th November 1900.—The following correspondence regarding the arrangements to be made for the pilgrimage to the Hedjaz, during the season 1900-1901, is published for general information.

E. N. BAKER,
Secy. to the Govt. of Bengal.

No. 2620, dated Simla, the 26th October 1900.

From—J. P. HEWETT, ESQ., C.S.I., C.I.E., Secretary to the Government of India, Home Department,

To—The Secretary to the Government of Bengal, Municipal (Medical) Department.

I AM directed to acknowledge the receipt of your letter No. 509T.—P., dated the 8th September 1900, regarding the arrangements to be made for the pilgrimage to the Hedjaz during the ensuing season, and in reply to forward, for the information of His Honour the Lieutenant-Governor, a copy of a Notification No. 2615, dated the 26th instant, issued by the Government of India under the Epidemic Diseases Act, 1897.

2. It will be observed that the pilgrimage will be permitted, except in the case of residents of the Bombay Presidency (excluding Sind), the Madras Presidency, the Mysore State, Coorg, the Jullundur district of the Punjab and Bengal, excepting the Chittagong Division. Karachi (provided no serious outbreak occurs in it) will next season be used as a port of embarkation as well as Chittagong. Should, however, a serious recrudescence of plague render it necessary to prohibit embarkation at Karachi, an alternative clean port between Bombay and Karachi will, if possible, be substituted for Karachi, and pilgrims will be diverted to this alternative port for embarkation. The Government of India desire to repeat the instructions given last year that all possible means should be taken to make the purport of the orders immediately and widely known, and to explain the reasons on which they are based. Every endeavour should also be made through Magistrates of districts, the religious heads of the Muhammadans, pilgrim-brokers, and in any other way that the Government of Bengal thinks best, to dissuade intending pilgrims from going to the Hedjaz next season.

3. I am also to forward, for the information of His Honour the Lieutenant-Governor, a copy of a circular addressed to certain Local Governments and Administrations on the subject of the arrangement for despatching pilgrims from the parts of India from which alone the pilgrimage is permitted to Karachi and Chittagong, for the purpose of embarking them for the Hedjaz. It will be noticed that the route *viâ* Chittagong will be made available for pilgrims from Bengal, Burma, Assam and the eastern portion of the North-Western Provinces and Oudh, and the route *viâ* Karachi for pilgrims from Sind the Hyderabad State, the Hydarabad Assigned Districts and Upper India. The Government of India, I am to say, agree with the recommendation made in your letter of the 8th September that the arrangements for receiving the pilgrims at Chittagong and despatching them thence to the Hedjaz should be similar to those made last season. Pilgrims due at Chittagong from other provinces will be despatched from camps situated in those provinces to the Chittagong camp after they have completed the necessary period of observation. The Local Governments and Administrations concerned have been directed to inform the Government of Bengal of the arrangements made, and to supply periodical information respecting the number of persons in the provincial camp destined for Chittgong and the period of observation they have completed. I am to request that the Government of Bengal may enter into communication with the Local Governments and Administrations concerned on the subject of the arrangements for receiving pilgrims from the provincial camps.

4. Tickets are to be sold only at the observation camps, and I am to request that steps may be taken to enforce this order and make it known to pilgrim-brokers. The Government of Bombay have been requested to inform shipping agents of the arrangements, and to ascertain as far as possible the number of ships that will be available, the dates on which they will start, and whether they will sail from Karachi or Chittagong. They have also been

requested to communicate to the Government of Bengal any information that may be ascertainable about vessels starting from Chittagong.

5. The Government of India will be glad to be informed in due course of the progress of the arrangements. They also wish to be told, from time to time, what pilgrim ships will sail from Chittagong, approximately on what date they will start, and what numbers they will carry.

No. 2615, dated Simla, the 26th October 1900.

NOTIFICATION—By the Government of India, Home Department.

IN the Notification of the Government of India in the Home Department, No. 2936, dated the 20th October 1899, it was ordered, under the powers conferred by section 2, sub-section (1) of the Epidemic Diseases Act (III of 1897), that the pilgrimage to the Hedjas during the season of 1900 might be permitted, except in the case of persons residing in the Bombay Presidency (including Sind), the Presidency of Madras, the Mysore and Hyderabad States, Coorg, Calcutta and the Saran district of Bihar, the Nagpur Division of the Central Provinces and the Hosiarpur District of the Punjab, subject to certain precautions and restrictions which were imposed in view of the strong opinions of all European Governments, including Turkey, regarding the danger of plague being communicated to Europe, and in view of the danger of plague being spread by intending pilgrims from infected to non-infected portions of India.

Plague is unfortunately still widely prevalent in the Bombay Presidency and the Mysore State. The disease continues to exist in the Salem district of the Madras Presidency. Imported cases are of somewhat frequent occurrence in the districts of the Madras Presidency adjoining the Mysore State. Calcutta and a few districts in Bengal continue to be infected. The outbreak in the Jullundur and Hoshiarpur districts of the Punjab ceased in June, but three suspicious cases of a very mild type have recently been reported from the former district. The remaining Provinces in British India are entirely free from plague. The Hyderabad State has also ceased to be infected, no cases having been reported, except from the Lingsapur district, since the month of May; while in this district itself no case is known to have occurred since the beginning of October.

The alarm experienced by European Governments, including Turkey, regarding the danger of plague being imported to Europe is in no measure abated, and during the past season Indian pilgrims were again subject, on and after arrival at Turkish ports, to much vexatious restriction and consequent hardship. The Government of India do not think it necessary to prohibit the pilgrimage from the uninfected portions of India during the ensuing season, but they consider it essential that careful precautions should be observed similar to those which were enforced during the past season. The port of Karachi is now no longer infected, and with a view to mitigating the inconvenience to pilgrims from parts of the north of India of the long journey to Chittagong, the Government of India have determined to permit embarkation this year at Karachi. Should, however, a serious outbreak occur there before, or during the course of, the ensuing season, it will probably be necessary to cancel this permission and to direct that pilgrims who had proposed to go from Karachi should go from some other port.

The Governor-General in Council is pleased to cancel the order contained in the Notification of the Government of India in the Home Department, No. 3936, dated the 20th October 1899.

The Governor-General in Council is further pleased to direct that, until further orders, no person resident permanently or temporarily in the Presidency of Bombay (excluding the whole of Sind), the Madras Presidency, the Mysore State, Coorg, the Jullundar district of the Punjab and Bengal, excepting the Chittagong Division, shall be permitted to embark from any port of India with the object of making a pilgrimage to Mecca.

The Governor-General in Council is further pleased to direct as follows:—

(1) That no person shall be permitted to embark with the object of making a pilgrimage to Mecca, except at the port of Karachi in Sind and Chittagong in the Lower Provinces of Bengal, and unless and until such person has been kept under observation in a place appointed for the purpose until such time as the Medical Officer in charge shall be satisfied that all risk of such person conveying the infection of plague has been completely abated, and unless such person is conveyed from the place of observation to the place of embarkation under the charge of an officer appointed for the purpose.

(2) That no passage tickets for the Hedjaz shall be sold except at the places appointed for the detention of intending pilgrims under observation.

The Government of India think it necessary to repeat the warning given last year that, although they have decided that the pilgrimage to the Hadjaz may be permitted subject to the safeguards enumerated above, they are nevertheless convinced that intending pilgrims will be well advised in deferring their purpose until another season, in view

specially of the stringent quarantine rules imposed by the Turkish Government, and of the inconvenience and harassment to which it is likely they will be subjected on arriving in Arabia.

Nos. 2622-27, dated Simla, the 26th October 1900.

From—J. P. HEWETT, ESQ., C.S.I., C.I.E., Secretary to the Government of India, Home Department,

To—The Secretary to the Government of the North-Western Provinces and Oudh, Sanitation Department; the Judicial and General Secretary to the Government of the Punjab; the Hon'ble the Chief Commissioner of the Central Provinces; the Hon'ble the Chief Commissioner of Assam; the Hon'ble the Agent to the Governor-General in Rajputana; the Hon'ble the Agent to the Governor-General in Baluchistan.

I AM directed to forward, for the information of the Government of the North-Western Provinces and Oudh / Punjab / your information a copy of a Notification, No. 2615, dated the 26th instant, issued by the Government of India under the Epidemic Diseases Act, 1897, with regard to the pilgrimage to the Hedjaz during the ensuing season.

2. The Government of India desire to repeat the instructions given last year that all possible means should be taken to make the purport of the orders immediately and widely known, and to explain the reasons on which they are based. Every endeavour should also be made through Magistrates of districts, the religious heads of the Muhammadans, pilgrim-brokers, and in any other way that the Government of the North Western Provinces and Oudh / Punjab thinks / you think best, to dissuade intending pilgrims from going to the Hedjaz next season.

3. [It will be observed that the pilgrimage has been prohibited in the case of all residents of the Jullundur district.] Embarkation will next season be permitted from Karachi in Sind (provided no serious outbreak of plague occurs in it) as well as from Chittagong in the Lower Provinces of Bengal. Should, however, a serious recrudescence of plague render it necessary to prohibit embarkation at Karachi, an alternative clean port between Bombay and Karachi will, if possible, be substituted for Karachi, and pilgrims will be diverted to this alternative port for embarkation. The route *viâ* Chittagong is designed for pilgrims from Bengal, Assam, Burma and the eastern portion of the North-Western Provinces and Oudh, and the route *viâ* Karachi for the inhabitants of Sind, the Hyderabad State, the Hyderabad Assigned Districts, and Upper India. The Governments of Bombay and Bengal will open central camps in the neighbourhood of Karachi and Chittagong, respectively, to which intending pilgrim from other provinces must be sent under arrangements similar to those made last year. All persons in the North Western Provinces and Oudh / Punjab and neighbouring Native State / Central Provinces / Assam / Rajputana / Baluchistan who persist in the desire to go on pilgrimage [and all persons from beyond the border who enter Baluchistan for the same purpose and persist in it] must be collected at an observation camp within the Province / *Agency, where they must be detained under the careful superintendence of a Commissioned Medical Officer for at least ten days, and where their wearing appeal, bedding, &c., must be disinfected. Intending pilgrims who have completed the ten days' observation period and are certified to be free from infection should be sent to the camp at Karachi or Chittagong, as the case may be, as soon as information is received by the Government of the North Western Provinces and Oudh / Punjab / you from Sind or Bengal that the authorities are ready to take them over. This will depend on the number of ships available and on the dates on which they sail. The Governments of Bombay and Bengal have been asked to obtain as full information as possible on the subject. Pilgrims must be despatched from the provincial camp by special train and under the charge of a responsible officer. In cases in which there are only a few pilgrims present when notification is received from the Government of Bombay or Bengal that a ship is ready for them, small batches may be sent in a special carriage attached to an ordinary train, provided that the carriage is reserved exclusively for their use, that they are placed in charge of a responsible officer, and that they are not allowed to mix with other persons. [It will be necessary to communicate with the political authorities in Native States with regard to the reception of pilgrims from those States in the provincial observation camp.] Passage tickets to the Hedjaz may be sold only at the observation camps, and I am to request that the necessary steps may be taken to enforce this order and, in communication with the Government of Bombay and Bengal, to make it known to shipping agents and pilgrim brokers.

[To the Punjab only.]

[To Baluchistan only.]

* In the case of Rajputana and Baluchistan.

[Omit in case Rajputana and Baluchistan.]

4. I am to request that a place for the observation camp may be selected at once, that arrangements may be made as quickly as possible to give effect to the instructions contained in this letter, and that the arrangements may be communicated to the Government of India and to the Governments of Bombay and Bengal. Arrangements should be made in communication with the Governments of Bombay and Bengal for supplying a periodical statement of the number of persons in the provincial camp destined for Karachi or Chittagong

and the period of observation they have completed, and for despatching pilgrims from the provincial camp to the camp at Karachi or Chittagong, as the case may be.

A forecast of the number of persons likely to require passages should be sent to the Governments of Bombay and Bengal as soon as the information can be procured.

[To the Punjab only.] [5. Pilgrims from Kashmir and from beyond the Punjab and Kashmir borders will, in accordance with the orders which issued last year, be detained under observation in the Punjab camp, and will be despatched along with the Punjab pilgrims to Karachi. (Letter No. 2943, dated the 20th October 1899.) Intending pilgrims from Central India who desire to embark at Karachi will also be dealt with in a similar manner. I am to request that arrangements may be made to collect pilgrims from beyond the Punjab border at the observation camp, and that pilgrims from Kashmir and Central India may also be received in the camp. The Resident in Kashmir and the Agent to the Governor-General in Central India have been directed to settle, in communication with the Government of the Punjab, the arrangements for despatching the pilgrims from Kashmir and from beyond the Kashmir border and from Central India to the Punjab observation camp. Pilgrims from beyond the Baluchistan border will be kept under observation in a camp in the Baluchistan Agency.]

[To the North-Western Provinces and Oudh only.] [6. Intending pilgrims from Central India who desire to embark at Chittagong will be kept under observation in the North-Western Provinces and Oudh provincial camp. The Agent to the Governor-General in Central India has been informed of this, and I am to request that the necessary arrangements may be made in communication with him.]

No. 924T.—P., dated Darjeeling, the 6th November 1900.

From—E. N. BAKER, ESQ., C.S.I., Secy. to the Govt. of Bengal, Municipal Dept.,
To—The Inspector-General of Police, L. P.

I AM directed to forward, for your information, the accompanying copy of a letter from the Government of India, No. 2620, dated the 26th October 1900, and of its enclosures, containing instructions in regard to the pilgrimage to the Hedjaz during the ensuing season.

2. Orders will, as last year, be issued on paragraph 2 of the Government of India's letter from the Political Department of this office, and it is hoped that this will have the desired effect of deterring a large number of Muhammadans from making the pilgrimage.

3. The Lieutenant-Governor has decided to place you in charge of the arrangements for despatching pilgrims from Chittagong in the manner described in paragraph 3 of the letter of the Government of India. You will observe that pilgrimage is permitted except in the case of residents of the Bombay Presidency (excluding Sindh), the Madras Presidency, the Mysore State, Coorg, the Jullundur district of the Punjab, and Bengal excepting the Chittagong Division, and that Chittagong will be the port of embarkation for pilgrims from Bengal, Burma, Assam, and the eastern portion of the North-Western Provinces and Oudh. The central camp should be established at the same place as last year. I am to request that, after making such enquiries as may be necessary, you will submit, for the information of the Lieutenant-Governor and for communication to the Government of India, a report stating in as full detail as possible the arrangements you have been able to make for the detention and reception of pilgrims from Bengal and other provinces at Chittagong, and for their despatch from that port. Your attention is invited to paragraph 5 of the letter from the Government of India, and I am to request also that you will report as early as possible what arrangements you have been able to make about ships, and the probable dates of their sailing.

4. The arrangements at the Chittagong Camp should be generally similar to those made last year, subject to any modification which may be considered desirable. The camp should be so arranged that the appearance of infectious disease in any one part may not render it necessary to detain the whole body of pilgrims. Special attention must be paid to the water-supply, the latrines, and the method of removing and disposing of the night-soil. You are authorized to supply the pilgrims with food during their attention in camp. The housing of female pilgrims, pilgrims of the upper classes, and the pilgrim brokers should also engage your attention. As soon as the camp is ready for the reception of pilgrims, the fact must be notified as widely as possible through leading Muhammadans, brokers and village chaukidars. The Local Governments of other provinces from which pilgrims may be likely to come will be

advised that communications regarding their despatch should be addressed to you direct, and you should make all necessary arrangements to have the batches of pilgrims forwarded to Chittagong at appropriate times in the manner indicated by the Government of India. All pilgrims who come from other provinces should be sent *viâ* Naihati without passing through Calcutta. The camp should have accommodation for 800 inmates, and a junior police officer should be placed in charge of it. You will be authorized to draw the necessary funds from the Chittagong Treasury.

5. Under the Home Department Notification cited above, tickets for the Hedjaz may only be sold at the places appointed for the detention of intending pilgrims under observation, *i.e.*, at the Chittagong Camp for Bengal, and at the observation stations in other provinces which may hereafter be chosen. This prohibition should be effectively enforced and be made widely known. No ticket should be excepted as valid which does not bear a certificate signed by the officer in charge of a camp (1) that the ticket was sold in the camp concerned; (2) that the holder was detained under observation up to the time of his departure. No person desiring to go on the pilgrimage should be admitted into the Chittagong Camp if he has not money enough to purchase a ticket to Jeddah. The cost of the sanitary dues which pilgrims are required to pay at Jeddah and Camaran should be included in the price of the ticket.

6. It will be the duty of the Port Officer of Chittagong to see that the provisions of the Pilgrim Ships Act, 1895, and the rules framed under it are duly complied with. He will be instructed to see that the pilgrims do not enter the town or have any communication with the residents of Chittagong. If any pilgrim ship, owing to its heavy draught, is unable to cross the bar of the Chittagong Harbour, the Port Officer will be required to take pilgrims out to such vessel when lying outside the bar. I am to invite your attention to the accompanying copy of a correspondence with the Marine Department regarding what narrowly escaped being a serious accident in connection with the embarkation of pilgrims last season. The greatest care might be taken to avoid any occurrence of the kind on the present occasion.

7. You should also ascertain what pilgrim ships are likely to start from Chittagong, and you should make the necessary arrangements about provisions for the voyage.

ORISSA CIRCLE.

OFFICE MEMORANDUM OF THE INSPECTOR OF SCHOOLS, ORISSA CIRCLE.

Rules for appearing at the F.A. and B.A. Examinations in 1901 for candidates from the Orissa Circle who are not students of any affiliated institution.

DEPUTY INSPECTORS OF SCHOOLS, Sub-Inspectors of Schools and *bonâ fide* teachers of recognised English schools who have served as such for the full period of two academical years or for a term of six months after an examination of the same class last held by the University in the case of those only who were admitted to a former examination of that class will be admitted to the abovementioned examinations. All applications from school masters should be accompanied by certificates of length of service from the Secretaries of the schools in which they are employed, and should reach this office not later than the 5th January 1901. The application of a school master for permission to appear at the F.A. or B.A. Examination should be signed by him in the presence of the Secretary or a member of the Managing Committee of the school in which he is employed. The application should be forwarded to the office of the Inspector of Schools, Orissa Circle, for countersignature, together with the Registrar's receipt to prove, if this be the case, that the candidate has appeared at the examination in a previous year, and the certificate in proof of his having passed the Entrance or F.A. Examination, as the case may be. Such papers will be sent back to him (the candidate), who will have to send them, together with the examination fee, to the Registrar of the University direct.

2. Candidates should read carefully the form of the certificate which the Inspector of the Circle will sign, and should be careful to supply all information and documents required, including the Registrar's receipt, in the case of those who have been admitted to a former examination of the same class, without which the Inspector must decline to sign the certificate applied for.

3. By *bonâ fide* teachers of schools are to be understood teachers who hold regularly paid appointments in English schools teaching at least the Middle English course.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situated in the district of Bhagalpur, will be put up to sale at the Bhagalpur Collectorate on the 5th January 1901.

The purchasers will be subject to the following conditions of sale:—

Conditions of sale.

1st—The estate to be sold to the highest bidder above the upset price amounting to two years' present revenue. The purchaser of the estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity, equal to 90 per cent. of the existing present gross rental.

2nd—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd—If the amount of purchase-money do not exceed Rs. 100, the whole amount is to be paid down at once.

4th—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount bid is to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

Serial number.	Number on the district roll.	Name of estate and pargana.	Approximate area in acres.	Present rental assessed.	Revenue to be fixed in perpetuity, equal to 90 per cent. of existing gross rental, i.e., of column 5.

The 15th November 1900.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the reports from 1876:—

Bray rock.—Non-existence of.

WITH reference to notice to Mariners No. 165, dated 30th July 1898, issued by this office, the British Admiralty has given further notice (No. 698 of 1900) that further information has been received that the Commander of the S.S. *Warimoo* reports having searched on two occasions, in April and July 1900, for the danger (a ragged coral rock, about a quarter of a cable in extent, and 6 to 10 feet high) named Bray rock, which was reported to exist in 1898 by the Master of the Missionary vessel *Morning Star*, in lat. 7° 32′ N., long. 173° 13′ W.

Good observations were obtained and a careful look-out kept from both masthead and deck, when near and on the reported position, without anything resembling a rock or islet being seen. It is therefore considered probable that the Master of the *Morning Star* must have seen a floating object, and consequently Bray rock has been erased from the Charts. (*Notice No. 698 of 1900.*)

Shoals in southern and western passes—Leading marks.

THE British Admiralty has given notice (No. 702 of 1900) respecting the existence of certain rocks in the southern and western passes into Zanzibar harbour:—

a. A coral head, named Penfold rock, with a least depth over it of 14 feet, is situated with Sand head on Kisiki reef bearing N. 10° E., distant 7 cables. This shoal is marked by a black buoy.
Approximate position, lat. 6° 13′ S., long. 39° 10½′ E.

b. A coral head, with a least depth over it of 21 feet, is situated with the Sand head on Kisiki reef bearing N. 12° E., distant 8¾ cables.

c. A rock, with a depth of 26 feet over it (situated almost directly on the leading mark, with Sand head on Kisiki reef bearing N. 7° E., distant 8¾ cables.

The bottom is rocky and uneven in this vicinity, and it is possible that less water may exist, heavy draught vessels should therefore proceed with caution when near low-water springs.

Masingini house (the rear leading mark) is a ruin, and no longer visible from the southward The summit on which it stood is, however, well marked by a double clump, the right hand and largest of which in line with the white stone pillar near Kiungani, N. 44° E., is the leading mark which should be carefully followed.

A coral head of 2¼ fathoms has also been found in the centre of the passage between Fungu Chawamba and the Two-fathom bank to the northward of it in the western pass. (*Notice No. 702 of 1900.*)

Volumes 1 and 3 of the Revised Sailing Directions for the Pacific Islands (to be issued in three volumes instead of two volumes as at present) being now ready, are issued at once, without waiting for Volume 2, which will not be ready before the end of 1900.

The new Volume 1 (1900) cancels the whole of the old Volume 1 (1890), excepting chapter v, from pages 286 to 356. It also cancels pages 191 to 204 of China Sea Directory, Volume 4 (1894), and Supplement, 1894, relating to Pacific islands, vol. 1, part 1.

The old Volume 1 (1890) and Volume 1, part 2 (1893), will therefore have to be retained for reference until Volume 2 is published, as also Hydrographic Notices, Nos. 1 of 1894; 1 of 1895; 7 of 1895; and 7 of 1897.

The new Volume 3 cancels that part of Volume 2 from page 273 to the end.

When the new 2nd volume is published, all the old directions, including Volume I, part 2, and the Hydrographic Notices named above, will be cancelled. (*Notice No. 647 of 1900.*)

PACIFIC OCEAN—PACIFIC ISLAND, MEIACO SIMA.

Non-existence of Ykima island.

THE following Notice to Mariners (No. 649 of 1900) issued by the British Admiralty is republished:—

Information has been published by the United States Government, dated 4th August 1900, that Commander Seaton Schroeder, of the U.S.S. *Yosemite*, reports having sounded in 290 fathoms without obtaining bottom in lat. 24° 25′ N., long. 125° 29′ E., or on the position where an island named Ykima is shown on the Charts to the southward of the Meiaco Sima group.

The day was clear with a perfect condition of visibility, but no island could be seen.

Ykima island appears to have been placed originally on a Chart of the China Sea, published by the East India Company's Hydrographer (Horsburgh) in 1835. No mention was made of its existence in any of the earlier editions of Horsburgh directory, nor is any account of it given in any edition of that directory.

In 1843 Sir E. Belcher, in H.M.S. *Samarang*, looked for this island, but failed to find it.

In 1856 the U.S. expedition under Commodore Perry also looked for Ykima without effect.

In 1870 Captain G. H. Schoof, of the German barque *Uranus*, passed over its position without seeing any such island.

No such island is shown on the plan of Meiaco Sima islands by Captain Broughton of H.M.S. *Providence*, 1795.

As no authority can be found for placing Ykima island on the Chart in the position given above, and as no report of its existence can be traced, it is considered probable that this island must be identical with Ikema island shown on the Chart in lat. 24° 56′ N., long. 125° 16½′ E., at the north end of Taipinsan island.

Ykima island, in lat. 24° 25′ N., long. 125° 29′ E., has been consequently erased from the Admiralty Charts. (*Notice No. 649 of 1900.*)

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from eye observations

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

NOTIFICATION No. 3546J.

The 22nd November 1900.—The following draft of a rule which it is proposed to make in exercise of the powers conferred by section 7 of the Indian Explosives Act (IV of 1884) is published, as required by section 18 of the said Act, and the Government of India, Home Department, Notification No. 1964, dated 2nd September 1887, for the information of persons likely to be affected thereby, and notice is hereby given that the draft will be taken into consideration by the Lieutenant-Governor after one month from the date of this notification.

2. Any objection or suggestion, which may be received from any person with respect to the draft within that period, will be considered by the Lieutenant-Governor.

DRAFT RULE.

"The officers herein undermentioned are authorized, within the areas, respectively, specified below:—

(*a*) to enter, inspect and examine any place, carriage or vessel in which an explosive is being manufactured, possessed, used, sold, transported or imported under a license granted under the Indian Explosives Act (IV of 1884), or in which they have reason to believe that an explosive has been or is being manufactured, possessed, used, sold, transported or imported in contravention of that Act, or of the rules thereunder;

(*b*) to search for explosives therein;

(*c*) to take samples of any explosives found therein, on payment of the value thereof; and

(*d*) to seize, detain, remove, and, if necessary, destroy or otherwise render harmless any explosive found therein, in respect of which there may be reason to believe that the provisions of the said Act or of the rules thereunder have been contravened.

Areas.	*Officers.*
In all parts of Bengal.	Chief Inspector and Inspector of Explosives.
Within their respective districts.	All District Magistrates.
Within the areas respectively subject to their jurisdiction.	All Magistrates subordinate to the District Magistrate.
In the town of Calcutta and its suburbs.	The Commissioner of Police, Calcutta, and all Police Officers of rank not below that of Inspector, if specially deputed in that behalf by the Commissioner of Police:

Provided that—

(1) Whenever the Chief Inspector or the Inspector of Explosives or any Magistrate subordinate to the District Magistrate, seizes, detains or removes any such explosive, he shall report the fact to the District Magistrate.

(2) Neither the Chief Inspector nor the Inspector of Explosives, nor any Magistrate subordinate to the District Magistrate, shall destroy or otherwise render harmless any such explosive, without the previous sanction of the District Magistrate, unless the matter appears to him urgent and fraught with serious public danger; and, in such cases, he shall take and keep a sample of the explosive, and shall, if required, give a portion of the sample to the person owning the explosive or having the same under his control at the time of seizure, and shall report the circumstances to the District Magistrate.

The following are the conditions of sale:—

1. The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2. The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3. The sale shall commence at the hour of 11 A.M., of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M., but if at that hour any of the

lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4. Each lot shall contain five chests.

5. A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

6. The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7. The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8. No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9. The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10. Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots of chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order.

11. No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12. The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand

render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13. With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14. The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, Certificate of the opium advertised for sale; No 2, Report of the examination of such opium.

17. The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1899-1900, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situated in the district of Bhagalpur, will be put up to sale at the Bhagalpur Collectorate on the 5th January 1901.

The purchasers will be subject to the following conditions of sale:—

Conditions of sale.

1st—The estate to be sold to the highest bidder above the upset price amounting to two years' present revenue. The purchaser of the estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity, equal to 90 per cent. of the existing present gross rental.

2nd—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd—If the amount of purchase-money do not exceed Rs. 100, the whole amount is to be paid down at once.

4th—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount bid is to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

Serial number.	Number on the district roll.	Name of estate and pargana.	Approximate area in acres.	Present rental assessed.	Revenue to be fixed in perpetuity, equal to 90 per cent. of existing gross rental, i.e., of column 5.

Notice under Rule 19, Section II.

NOTICE is hereby given that the lease of the land specified in the Schedule hereunto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans, has been applied for by Sarada Prasnd Dalal and will be sold at 12 o'clock noon on the 15th February 1901 A.D., Friday, the 3rd Falgoon 1307 B.S., at the Sundarbans Commissioner's office at Alipore, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the rules for the sale of leases of waste lands in the Sundarbans of the 24-Parganas, Khulna, and Backergunge, dated 12th November 1879:—

Conditions.

That the land shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a towpath, not less than 25 feet in width, on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land; but for wood and timber exported for sale, a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right, which shall be hereditary and transferable.

Bray rock.—Non-existence of.

WITH reference to notice to Mariners No. 165, dated 30th July 1898, issued by this office, the British Admiralty has given further notice (No. 698 of 1900) that further information has been received that the Commander of the S.S. *Warimoo* reports having searched on two occasions, in April and July 1900, for the danger (a ragged coral rock, about a quarter of a cable in extent, and 6 to 10 feet high) named Bray rock, which was reported to exist in 1898 by the Master of the Missionary vessel *Morning Star*, in lat. 7° 32′ N., long. 173° 13′ W.

Good observations were obtained and a careful look-out kept from both masthead and deck, when near and on the reported position, without anything resembling a rock or islet being seen. It is therefore considered probable that the Master of the *Morning Star* must have seen a floating object, and consequently Bray rock has been erased from the Charts. (*Notice No. 698 of 1900.*)

AFRICA, EAST COAST—ZANZIBAR HARBOUR.

Shoals in southern and western passes—Leading marks.

THE British Admiralty has given notice (No. 702 of 1900) respecting the existence of certain rocks in the southern and western passes into Zanzibar harbour :—

a. A coral head, named Penfold rock, with a least depth over it of 14 feet, is situated with Sand head on Kisiki reef bearing N. 10° E., distant 7 cables. This shoal is marked by a black buoy.
Approximate position, lat. 6° 13′ S., long. 39° 10½′ E.

b. A coral head, with a least depth over it of 21 feet, is situated with the Sand head on Kisiki reef bearing N. 12° E., distant 8¾ cables.

c. A rock, with a depth of 26 feet over it (situated almost directly on the leading mark, with Sand head on Kisiki reef bearing N. 7° E., distant 8¾ cables.

The bottom is rocky and uneven in this vicinity, and it is possible that less water may exist, heavy draught vessels should therefore proceed with caution when near low-water springs.

Masingini house (the rear leading mark) is a ruin, and no longer visible from the southward. The summit on which it stood is, however, well marked by a double clump, the right hand and largest of which in line with the white stone pillar near Kiungani, N. 44° E., is the leading mark which should be carefully followed.

A coral head of 2¼ fathoms has also been found in the centre of the passage between Fungu Chawamba and the Two-fathom bank to the northward of it in the western pass. (*Notice No. 702 of 1900.*)

The Resolution reviewing the Divisional Reports on the working of the District Boards in Bengal during 1898-99.

THERE has been no change during the year under review in the number of District and Local Boards in Bengal, and the area controlled by them also remained the same. Since the close of the year, the provisions of the Bengal Local Self-Government Act, III of 1885, have been extended to the districts of Hazaribagh, Ranchi, Palamau and Manbhum, and a Local Board has been formed in the Alipur subdivision of the district of Jalpaiguri.

2. *Constitution of District Boards.*—On the 31st March last the 38 District Boards contained in all 796 members against 795 in 1898-99. The difference of one in the total strength of members was due to the fact that the seat of one elected member of the Khulna District Board remained vacant throughout the year 1898-99. One hundred and ninety-one out of these 796 members were appointed *ex-officio*, 271 were appointed by Government and 334 were elected by the Local Boards, as compared with 186, 281 and 328, respectively, in 1898-99; of these 251 were officials and 545 non-officials. European and Eurasian members numbered 196 and natives of the country 600. During the year 575 meetings were convened, or 20 more than in 1898-99. The District Board of Saran heads the list with 27 meetings, Puri comes next with 23, and Rangpur follows with 21. On the other hand, the District Boards of Rajshahi and Monghyr met only 11 times during the year, and no explanation has been given of their neglect of the rule that a meeting shall be held at least once a month. The attendance was best in Hooghly and Saran, and worst in Jalpaiguri and Puri. The average attendance of official members at each meeting was the same as that of the previous years, viz., 3·6, and that of the non-official members was 7 against 6·9 in 1898-99. The improvement noticed last year in the declining number of meetings which had to be adjourned or which proved abortive for want of a quorum, was maintained during the year, the figures being 45, 52 and 61, respectively, for the three years 1899-1900, 1898-99 and 1897-98.

3. *Constitution of Local Boards.*—The 105 Local Boards contained, on the 31st March last, 1,261 members, or 2 more than in the previous year. Of these, 46 were *ex-officio* members, 832 were nominated, and 383 elected, as compared with 39, 803 and 417, respectively, in 1898-99. Officials numbered 155 and non-officials 1,106, while the total of Europeans and Eurasians amounted to 113 against 1,148 natives of the country. The total number of meetings held was 1,218, or 111 more than in 1898-99. Of these, 200, as compared with 187 in the previous year, had to be adjourned or proved abortive, owing to failure to form a quorum. Fifty one Local Boards, as against 63 in the previous year, failed to meet once a month, and 5 of these, viz., Hajipur, Sitamarhi, Thakurgaon, Nowgong and Dinapore, held only 5 meetings, or less, during the year. The Dinapore Local Board held only 3 meetings during the year, of which 1 was adjourned, and no attempt has been made to explain why so few meetings were held. There was a slight improvement generally in the

attendance of non-official members, that of the official members being the same during the past two years.

4. *Elections.*—General elections of members of Local Boards were held in three subdivisions of the district of Midnapore and in all the four subdivisions of the district of Patna. On the latter the Commissioner makes no remarks, while in the former district the principal feature of the elections was the indifference displayed by the voters, who, the Commissioner considers, are quite content to leave matters to their superiors. The same feature is noticeable with regard to the various bye-elections held during the year, which appear to have aroused little or no interest.

5. *Occupation of members.*—The occupations of the members of the District and Local Boards are shown in the statement below:—

	Government servants.		Zamindars, Talukdars, and Zamindar's servants.		Pleaders and Mukhtears.		Planters.		Missionaries.		Government pensioners.		Others.		Total number of members.

There has been no material change in the composition of the Boards. Zamindars, as last year, furnished the largest proportion of members of both District and Local Boards, and next to them come Government servants in the case of District Boards, and pleaders and mukhtears in the case of Local Boards.

6. *Powers of Local Boards.*—The only changes in respect of the powers of Local Boards were the withdrawal of the management and supervision of village roads from the Local Boards in Murshidabad and the delegation of the maintenance of certain district roads to the Local Boards in Pabna. The powers of the Local Boards in Mymensingh, as regards administration of the grants for primary education, were also withdrawn to some extent during the year. In the districts of the Patna Division a proposal is under consideration to re-classify several of the roads, and to withdraw all roads costing on an average over Rs. 10 a mile from the management of the Local Boards and place them in charge of the District Engineer.

7. *Union Committees.*—The table below shows the constitution, income and expenditure of the several Unions:—
